PRICE FIVE CENTS

VANCOUVER CHIEF SAYS POLICE WILL CLEAN UP CITY

National Control of Radio Broadcasting Urged Criminals Big and Small Warned Terminal City To Be Too Hot For Them

Indirect Advertising Approved by Canadian Radio League Delegation Which Presents Recommendations to Minister at Ottawa; Duranleau Says Government Wishes to Protect Canadians From Foreign Propaganda.

Ottawa, Jan. 9.—The members of a delegation from the Canadian Radio League, interviewing Hon. Alfred Duranleau, Minister of Marine, in charge of radio, here to-day, presented views urging the government should take steps to form a national radio broadcasting company, whose function would be to own, operate and control radio broadcasts throughout Canada. That company, it was suggested, should be administered by a voluntary directorate of twelve.

INDIRECT ADVERTISING
Opposition was expressed to direct advertising by radio broadcast, such being declared objectionable and detrimental to the development of broadcasting. Indirect advertising, however, was approved by the delegation inasmuch as "Canadian business requires some means of competing with the great quantities of American advertising relayed by private Canadian stations or heard directly from American stations."

DRAFTING BILL
"The Government," said Mr. Duranleau, in reply, "wants to protect the Canadian public against foreign advertising and foreign propaganda. To that end the government has been studying the whole radio problem and hopes to be able to present a solution that will serve the best interests of the country."

MEMBERS OF GROUP
Mr. Duranleau received the delegation in his office, the group comprising Graham Spry, chairman of the executive council of the Radio League; Tom Moore, president of the Trades and Labor Congress of Canada; J. A. MacIsaac, representing the Canadian Legion of the British Empire Service League; Rev. Father Gilles Marchant, rector of Ottawa University; K. A. Greene, Russell Smith, K.C., Talan Plaut, Mrs. J. Wilson, president of the National Council of Women, and Lady Kingsmill.

Each delegate voiced the views of the organization he represented.

In a memorandum submitted to the minister, outlining the position of the delegation, the present situation respecting radio as between Canada and the United States was declared to be unsatisfactory. Canada has several stations with a total broadcasting power of 33,000 watts, and an assured range of 295,000 square miles. It was stated that the United States had over 600 stations reaching Canada with total broadcasting power of 679,000 watts and a range of 726,000 square miles. Illustrating the comparative size of these stations, the delegation presented the following table:

Section	U.S. Pow. Canada Pow.
British Columbia	61,000 watts 1,220 watts
Alberta	124,000 watts 12,200 watts
Ontario	413,000 watts 12,750 watts
Quebec	238,000 watts 8,672 watts
Maritimes	250,000 watts 1,880 watts

With regard to revenue for the proposed National Company, the delegates suggested to the minister that indirect advertising was estimated to yield \$1,200,000 a year, which would not carry interest charges and annual cost for six 50,000-watt stations. The cost of operating one such station, taking in salaries, transmission, rental, interest, lighting and insurance but not depreciation and wire charges, was \$490,000.

ATTITUDE OF BROADCASTERS

The tendency in other countries toward combination of large broadcasters was not now practicable in Canada, the memorandum set forth, owing to the decision of several of the broadcasters concerned "that a public system would provide them with ample opportunity to broadcast indirect advertising and ample coverage, without the necessity of investing several millions in equipment."

Replying to the delegation, Mr. Duranleau said the government had been studying this question for several months, and hoped to reach a solution that would operate to the best interests of Canada.

\$20,000 LOSS IN VANCOUVER FIRE

Vancouver, Jan. 9.—Damage estimated at \$20,000 was caused by a spectacular fire of unknown origin which destroyed the foundry and equipment of the Daily Sheet Metal Works at Industrial Avenue and Main Street here yesterday evening.

The fire had a complete hold on the building before it was discovered. Efforts of firemen saved the pattern shop adjoining the foundry, with its valuable stock. That building suffered damage from flames and water.

HEADS PANAMA'S NEW MINISTRY AFTER REVOLT

DR. HARNODIO ARIAS, a leading Panama City lawyer, is Premier of the cabinet which now rules the Central American republic. The picture above is one of his latest, taken shortly before the revolutionists ousted President Florencio Arce and his administration.

PRAIRIE FARM NEEDS ARE TO BE REPORTED

Premiers Will Make Relief Requests, States Federal Prime Minister

Ottawa, Jan. 9.—Back at his desk after his prairie tour, Premier R. B. Bennett early this afternoon stated that Alberta, Saskatchewan and Manitoba, through their Premiers, would forward individual reports to the Prime Minister on the situation in various localities among the wheat growers of the three provinces.

These reports, it was intimated, would have reference to the matters of "direct relief" in any cases which might possibly require it.

Premier Bennett called a meeting of the cabinet for this afternoon.

MAGRATH QUILTS AS CHAIRMAN OF ONTARIO HYDRO

Toronto, Jan. 9.—Announcement of his intention to resign as chairman of the Ontario Hydro-Electric Power Commission of Ontario was made to-day by Charles A. Magrath.

Speaking at a luncheon of the Municipal Electric Association, Mr. Magrath told of his intention to resign and expressed the hope Premier George Henry would appoint a successor immediately.

Mr. Magrath is chairman of the Canadian section of the International Joint Commission.

The Toronto Daily Star says it is predicted at the Ontario Legislative Buildings, Hon. W. H. Price, at present Attorney-General of the province, will succeed Mr. Magrath as hydro chairman.

ELECTION TEST ABANDONED

Quebec, Jan. 9.—A petition entered in the Superior Court of Quebec seeking annulment of the election of J. A. Verreille, successful Federal Liberal candidate in Loblawville County last July, has been withdrawn.

NEW WONDERS ARE PROMISED BY SCIENCE FOR THIS YEAR; BULLS TORTURED FOR SPORT

Some of the marvels on science's programme for 1931 are set out in the feature article of the Magazine Section of The Victoria Times tomorrow.

Other features in the Saturday Magazine Section will include: Sidney, the thriving home of Canada's Robbie Burns, who is Bobby Sloan.

Largest telescope awaits in California for Einstein to check his famous theories.

Crowds raze and applaud as matadors make mince-meat of infuriated bulls in Mexico's bull rings—a detailed eye-witness account of bullfighting.

How to do more in the slow-time 1931 dance steps.

Hiking and geologizing with Robert Connell, the naturalist, on Salt Spring Island.

CHINA TRADE IN TURMOIL AS SILVER FALLS

Mexican Dollars Down to New Low of 22.12; Critical Results Feared

Import and Export Trade Hard Hit, But Shanghai Has Real Estate Boom

Shanghai, Jan. 9.—Continued decline in the price of silver is causing uneasiness in government and business circles, observers fearing critical results unless efforts are made by western nations to "peg" the price.

Importers face the possibility that Chinese buyers will repudiate their orders because of declining silver, thereby embarrassing the government's foreign loan commitments by lack of revenue from imports.

London transfers this afternoon closed at 11 1/2 pence, while New York quoted 30 1/2 cents per tael. Mexican dollars to-day were quoted at 22.12 gold cents, a new low record. Yesterday the quotation was 23.16.

The effect is apparent on every phase of commercial life, since silver has been used as the principal medium of exchange. Shanghai financial institutions did an inter-bank business at the rate of almost 4 1/2 Mexican dollars for one of gold.

TRADE PARALYZED
Trade was virtually paralyzed. A survey of Shanghai's commercial houses showed all lines of business activity, both in the import and export trade, had been hard hit. Many enterprises were at a standstill and others were doing but a small portion of their normal turnover.

With few exceptions, importers said it was almost impossible to find local buyers capable of supplying enough silver to meet prices now quoted, which are now on a gold basis exclusively. This, according to the importers, has resulted in a virtual stoppage of the movement of cargoes to China. Many Chinese buyers under signed obligations have flatly refused to accept payment, pleading the declining price of silver has made them unable to handle the goods except at heavy losses. Importers in such cases have been forced to cancel the contracts.

RESULT OF POLITICAL CONDITIONS
Banking houses reported transactions at a virtual standstill, not one daring to buy or sell, with the banks bulging with silver dollars for which there was no demand. These surpluses were principally the result of (Concluded on Page 2)

ALL VICTORIANS ON B.C. LIST CAN VOTE ON BEER

Oak Bay Not Included in Test on Beer Parlors; No Property Qualification

All citizens of Victoria on the Provincial Voters' List will be permitted to use their franchise on the plebiscite on the sale of beer by the glass next Wednesday.

Voters of polling districts six and seven, in Oak Bay, will not be allowed to vote. Approximately 14,856 citizens will be eligible to use the franchise.

No property qualifications are necessary.

There has been some doubt as to the qualifications for voting, but everyone on the voters' list can cast a vote.

Voting will take place from 8 o'clock to 10 o'clock in the morning.

Polling stations follow:

- Ward 1—St. Francis Hotel, 550 Yates Street.
- Ward 2—Scott Building, Douglas Street.
- Ward 3—Auburn Garage, 1015 Yates Street.
- Ward 4—Old schoolhouse, near Christ Church Cathedral, Quadra Street.
- Ward 5—Empress Garage, 614 Government Street.

TIRE PRICE CUT ANNOUNCEMENT MADE TOO SOON

New York, Jan. 9.—J. A. McMillan, president of the Dayton Rubber Manufacturing Company, said to-day that "through a misunderstanding on my part I was quoted Wednesday that the Dayton Rubber Company had reduced tire prices five to ten per cent. This announcement was premature."

NO KNIGHTHOOD FOR WORLD FLIER

Melbourne, Australia, Jan. 9.—The Exchange Telegraph Agency claimed to have learned to-day that Premier Lang, Labor head of the New South Wales Government, has declined a request of the "soldiers' league" to recommend Wing Commander Charles Kingsford-Smith, transoceanic flier, for knighthood. The aviator's opposition to Labor policies was said to be the reason for the refusal.

BEACHES ARE SEARCHED FOR PLANE WRECK

Pilot Eckmann Goes From Prince Rupert to Annette Island on Renahan Hunt

Boats Search Off Skeena River, Where Fisherman Reported Submerged Object

Canadian Press
Prince Rupert, B.C., Jan. 9.—Pilot Ansel Eckmann, searching for the last day on a Seattle report of a blanket having been found on the beach of Annette Island, Alaska, similar to one carried by the Renahan party of three, said "The blanket" had not yet been definitely identified.

Eckmann plans to spend at least a week in the neighborhood of Annette Island before returning here. He expects to leave here this afternoon.

Annette Island is seventy miles northwest of here. Many fishermen reported that they had seen a wreckage on the beach of Skeena River mouth, where they were fishing. A half-dozen wrecks on the beach of Skeena River mouth, where they were fishing. A half-dozen wrecks on the beach of Skeena River mouth, where they were fishing.

SMITH ISLAND SEARCH
Ketchikan, Alaska, Jan. 9.—New Impetus was given the search to-day for Pilot Robin Renahan and his two companions, missing since October 28, as it was learned the fliers carried a brown blanket similar to one found on the beach of Duke Island.

Reports by fishermen that their lines had caught an obstruction on the bottom off Smith Island, off the Skeena River mouth, where they were fishing, led to the search.

Renahan party last was sighted in that vicinity while flying north to search for the late Capt. E. J. A. Burke, whose two companions were later rescued.

60,000 DEATHS IN WEST CHINA FACTION FIGHT

In Nine Months Moslem Bands Massacred 30,000 Natives of Kansu Province

Peking, China, Jan. 9.—Thirty thousand persons were massacred in north-western Kansu Province during the last nine months by the forces of the Mohammedan leader Ma Hsueh-shan, the government here has been informed.

During the same period bandits captured 20,000 women and at least 30,000 persons died of starvation in the ravaged regions.

The Nanking Government is planning a punitive expedition against the marauders.

FIRST BISON BORN IN NEW ZEALAND ATTRACTS CROWDS

Auckland, N.Z., Jan. 9.—The first North American bison born in New Zealand, at the zoological gardens here, attracted a large crowd of sightseers to-day.

The shaggy little creature is receiving more attention than all the other animals together. If it lives, it is said, it will be made to raise more to maturity.

CALLS ON CUBAN FORCES TO ENFORCE PUBLIC ORDER

Manzanillo, Jan. 9.—President Machado to-day signed a decree placing the entire army and navy in active service "to protect citizens and property" until public order in Cuba is completely restored.

PRESIDENT MACHADO

Havana, Jan. 9.—President Machado to-day signed a decree placing the entire army and navy in active service "to protect citizens and property" until public order in Cuba is completely restored.

BRANSON, BROWN FILE ASSIGNMENT IN BANKRUPTCY

Stock Brokers, Who Closed Doors, Unable to Meet Creditors' Writs

G. H. Kidd Likely to Be Custodian Until Formal Creditors' Meeting Is Held

Branson, Brown & Company, stock brokers, who operated offices in Victoria and Vancouver, went into bankruptcy before Registrar H. Tyrwhitt-Drake. The firm, which had around 500 clients, closed its doors on November 18 last.

Announcement of the assignment was made by President C. L. H. Branson, who said that so many writs were being served on the firm by clients seeking their stock or money, that bankruptcy was the only course. He had, after closing his doors, proposed to carry on under the Branson Investment Company in an effort to recover for his clients their losses. He said when they closed the directors were satisfied that the company was in a solvent position. However, efforts in the last six weeks to raise money to meet the claims of creditors, filing writs have not been successful.

Five days before the firm closed, papers were filed in the courthouse here completing a transaction, whereby a group of ten Victoria men put up a total of \$100,000 to save the firm. The group, explained, however, was a group of ten Victoria men put up a total of \$100,000 to save the firm. The group, explained, however, was a group of ten Victoria men put up a total of \$100,000 to save the firm.

6,000 RETURN TO WORK

New York, Jan. 9.—Six thousand employees of the Singer Manufacturing Company at Elizabeth, N.J., have resumed work on a four-day week basis.

HALF OF U.S. SET UP NEW DROUGHT RECORD IN 1930

Washington, Jan. 9.—It took the midnight hour of 1930-1931 to end officially the record-breaking drought of last year, and the tabulation is not over yet.

The Weather Bureau, compiling its preliminary figures for rainfall during 1930, to-day found drought records of all time had been smashed in twenty states, while a number of others had been saved only by downpours late in the year which made up the summer shortage.

Maryland, Delaware and the District of Columbia were the driest sections of the country during 1930, getting only 56 per cent of normal rainfall.

Arkansas, Louisiana, Mississippi and Alabama, which were very hard hit by the drought, showed average precipitation for the year near normal. Heavy rains throughout the fall did it.

Chief Says Investigation Branch of Police Force Strengthened and He Will Accept No Excuse From Men for Lack of Action; When Crime Wave is Ended City Must Be Kept Clean, He Says.

BIG FACTORY LOCK-OUT IN ENGLAND SOON

If Cotton Mill Owners and Workers Do Not Agree 200,000 Will Be Idle

First Group of 20,000 Persons Will Be Without Jobs in Burnley to-morrow

Canadian Press
Manchester, Eng., Jan. 9.—The central committee of the Cotton Spinners and Manufacturers' Association to-day advised affiliated members to close their mills Saturday, January 17, unless a labor dispute with the weavers has been settled in the meantime. If carried into effect the recommendation would mean a lock-out of 200,000 workers.

BURNLEY MILLS CLOSE
The Burnley mill owners already had decided to close their plants to-morrow unless the dispute should be settled. This will mean 200,000 more men will be thrown out of work.

Union spokesmen said the weavers were ready to make even more determined resistance and the general secretary of the weavers' organization said that he had no hope of an early agreement.

The textile industry has been in difficulties for weeks because of the weavers' refusal to accept the mill owners' demand that each man now operating four looms take over twice as many.

Chief John Fry announced this morning that city police would institute prosecutions against all motorists in the city who drive their cars without 1931 license plates after January 15, next Thursday.

"Midnight on the fifteenth is the zero hour, and after that we will bring into court those who have not got the new plates," the chief said.

Police are already at work warning drivers to register for the new licenses. The majority of local motorists are still driving with old plates, and it is with the idea of keeping prosecutions to a minimum that the warnings are being given.

Motor branch officials say that about forty per cent of B.C. cars have been equipped with 1931 licenses so far. Every facility is given for motorists to get their plates and the license office will be open until 5 o'clock Saturday to give out-of-town drivers an opportunity to visit the office.

SIX BALTIMORE BANDITS ESCAPE WITH \$15,000

Baltimore, Md., Jan. 9.—Six armed men, employees of the Commercial Savings Bank of North Baltimore, today seized cash estimated to total \$15,000 and fled in an automobile.

GET NEW PLATES BY THURSDAY IS CHIEF'S WARNING

City Police Will Prosecute Car Owners Without 1931 Licenses After Jan. 15

Chief John Fry announced this morning that city police would institute prosecutions against all motorists in the city who drive their cars without 1931 license plates after January 15, next Thursday.

"Midnight on the fifteenth is the zero hour, and after that we will bring into court those who have not got the new plates," the chief said.

Nearly \$70,000 Of 1931 Taxes Prepaid Already

Prepayment of taxes in Victoria indicates that, despite talk of hard times, there is plenty of ready cash in this city, figures issued by City Treasurer Edwin C. Smith this morning show. Although the year is only one week old, the city has received \$69,260.73 in prepaid taxes for 1931, an increase of \$3,458.82 over the amount received up to the same time last year when \$65,801.91 had been paid. Ratepayers who took advantage of the opportunity to pay their taxes early have saved \$51,126 in interest charges, as against \$2,934.64 rebated up to this time last year.

SOVIET INCOME REPORTED ABOVE OUTLAY TOTAL

Commissar of Finance Tells Central Executive Committee About 1931 Plans

Canadian Press
Moscow, Jan. 9.—Soviet Russia's current income is in excess of operating expenses, according to Gregory Grinko, Commissar of Finance, who reported to the Central Executive Committee of the Communist Party to-day. The state had been able to establish a reserve of a billion and a half rubles, he said. The ruble is nominally worth fifty cents.

"Our 1931 financial programme," he said, "not only does not contemplate the issue of any paper money, a matter about which our enemies abroad are so fond of talking, but on the contrary, we can see our income surpassing our expenses."

Reports abroad of a financial crisis in the Soviet Republic were laughable, he said, asserting that "Bourgeois observers" were unable to understand "conditions of Soviet economy under which distribution of material resources is conducted through an organized centralized system."

"How can anyone speak of inflation," he asked, "when prices of manufactured articles for the overwhelming

NEW BASIS FOR ARMY OF INDIA IS DISCUSSED

Thomas Addresses Round-Table Conference in London on Indianization Scheme

Canadian Press
London, Jan. 9.—Examination of a national military school in India and "Indianization" of the Indian Army are a part of the MacDonald Government's Indian policy, Mr. J. H. Thomas, Dominion Secretary, announced at the India Round-Table Conference here to-day. A military school, such as that proposed would correspond to Great Britain's Sandhurst.

If recruiting of British officers for the Indian Army should be stopped to-morrow, however, he said, it would take thirty-five years before all the British officers were out of the Indian Army. Indianization of the army would not be necessary, he said, before an Indian Government is achieved.

Mr. Thomas said: "My declaration is not a pious wish. Whatever may have been done in the past, we sit here dealing with a bigger and fiercer scheme. When this conference discusses it, it will not finish with words and resolutions. Practical steps will be taken to dovetail into a whole the general principles agreed on."

WINDSOR PARK SEARCHED FOR DEATH CLUES

Police Dig Near Windsor Castle For Traces of Missing Woman

Canadian Press
Windsor, Eng., Jan. 9.—Police were digging in the Royal Park surrounding Windsor Castle to-day, seeking clues to the disappearance of a woman, the age of Winifred Parrant, a domestic servant who has been sought since 1929.

They declined to say what had led them to the park, but disclosed they had found a brief case, tentatively identified as Miss Parrant's, and that its contents indicated she may have met with foul play.

Windsor Castle has been a royal residence since the time of William the Conqueror. The body of King Edward VII was buried there in 1910, and in a vault beneath the chapel the bodies of George III and members of his family were entombed.

Canadian Press
Vancouver, Jan. 9.—Arising out of the unemployed demonstration at the Cambie Street Grounds and Victoria Square here December 18, when police and demonstrators engaged in several riotous encounters, the court today sentenced J. A. Findlay in police court to-day on vagrancy and assault charges.

Three out of four men charged with assault on police officers were convicted. Waino Hall was given suspended sentence on a probationary bond of \$500, while Ken Paulson and Mike Kovito were remanded in custody until Saturday for sentence. The case against the fourth man, Eric Kronlund, was dismissed.

Mr. Helen Anderson and Lorne Drayton, charged with vagrancy and causing disturbance, were remanded until January 15, while Lorne Anderson was given suspended sentence on a similar charge.

Allan Campbell, Alias McEwan, and J. Cunningham, charged with "inciting to riot," were remanded also until Saturday for sentence. They are alleged to have incited to riot a crowd of unemployed men and women attending a meeting at Carrall and Cordova Streets.

Winnipeg, Jan. 9.—Bare, dusty streets can be seen in Alberta cities and towns, Saskatchewan reports very little snow and Manitoba has yet to feel a really heavy stroke from the hand of Old Man Winter. Through the prairies Jack Frost so far this winter has failed to maintain the reputation he has built himself.

Wild ducks are flying about the lakes of Manitoba turning deaf ear to the call of the warm, sunny south, contented with the mild weather prevailing. Blackbirds have been reported in several districts.

PUMPKIN SPROUTS ATTRACT NOTICE

Orilla, Ont., Jan. 9.—An agricultural rarity was discovered here yesterday when C. Bush opened a preserved pumpkin and found sprouts three and a half inches long. The pumpkin had been preserved early in September and preserving usually kills any growth in a pumpkin.

VANCOUVER MAN FIGHTS BANDITS STEALING AUTO

Police Hunt Four Men Who Menaced Life of Citizen on Street

Canadian Press
Vancouver, Jan. 9.—E. Woodworth fought a losing battle with four men who stole his car in the 100 block of East Seventh Avenue shortly before 9 yesterday evening, according to a report, hanging on the running board of the car, and was forced to abandon the fight when one of the bandits pulled a revolver and threatened his life.

Mr. Woodworth told police that when he approached his car, which was parked on Seventh Avenue, he found four men attempting to steal it. Leaping on the running board as it started, he fought three of the men, one with a blow on the jaw, the driver of the car stopped, and brandishing a gun, ordered Woodworth to "beat it or I will kill you."

Are experts expensive?

In the case of the administration of an estate, the reverse is true because the fee for an executor is fixed by the Court, and an experienced trust company receives the same fee as an individual.

Executorship of a Will calls for experience. Good intentions of individuals can never take the place of sound judgment.

A short talk with our officers about your wishes with respect to your estate should make a great difference to the future of your dependents. No obligation is involved.

SILVER BREAKS TO NEW LOW, 28 1/2

New York, Jan. 9.—While banking circles were keenly interested in reports from Washington and Ottawa of discussion of plans to extend an international silver loan to China, the price of the metal continued to sink to still lower levels to-day.

Bar silver in New York was quoted at 28 1/2 cents an ounce, off 1/4 of a cent since yesterday, making a two-day drop of 1 1/2 cents. This extends the decline from 1929 levels to nearly 47 per cent.

TALK CHINA LOAN AGAIN
Wall Street was particularly interested in a report by H. N. Lawrie, Washington economist. It is understood Mr. Lawrie's conclusions are generally in accord with the report which the Pitman sub-committee will shortly submit to the Senate committee on foreign relations.

It is felt in banking circles, restoration of far eastern purchasing power would go far toward bringing world consumption of such commodities as cotton and wheat into balance with production and prove an important step in the restoration of world prosperity.

Bar silver in New York was quoted at 28 1/2 cents an ounce, off 1/4 of a cent since yesterday, making a two-day drop of 1 1/2 cents. This extends the decline from 1929 levels to nearly 47 per cent.

Bar silver in New York was quoted at 28 1/2 cents an ounce, off 1/4 of a cent since yesterday, making a two-day drop of 1 1/2 cents. This extends the decline from 1929 levels to nearly 47 per cent.

New York Unemployed Ask New Measures

New York, Jan. 9.—Recruits from the bread lines and the municipal lodging houses for a series of "hunger marches" planned yesterday to dramatize the plight of the unemployed in New York were a disappointment to their Communist leaders.

The heralded group of meetings in various parts of each borough culminating in a concerted march on the

City Hall dwindled away to single meetings in Brooklyn, the Bronx and Manhattan.

Petitions asking improved sanitary conditions and better food in the municipal lodging house, indoor places for feeding the needy instead of "putting us on exhibition" in bread lines, and payment of unemployment insurance from the city treasury were presented by committees to the borough presidents of Brooklyn and the Bronx and to Commissioner Frank J. Taylor of the city department of public welfare.

STREET CAR LINES NEARING END IN BRITAIN

Gradual Abolition Is Recommended in Report of Government Commission

London, Jan. 9.—Gradual abolition of Great Britain's tramways, as street cars are called here, is recommended in the final report of the nation's traffic system a royal commission has just submitted to the government.

"It is our considered view," the commission says, "that tramways, as an obsolete form of transportation, are at all events in a state of obsolescence and cause much unnecessary congestion and considerable danger to the public."

There are something over 2,500 miles of tramways in the United Kingdom. In some parts of the provinces a trackless trolley car system is being tried out and the commission recommends this as a suitable alternative.

**GLASGOW NEEDY
AIDED BY LIPTON**

Glasgow, Jan. 9.—Sir Thomas Lipton yesterday gave the city of Glasgow \$50,000 for distribution among the poor mothers and children in his native city.

He made the gift, he said, in memory of his mother, "the guiding star of my life," and in appreciation of the many kindnesses he had received from the city.

He gave the cheque to Lord Provost Kelly at a luncheon.

NEW PLANE MAIL SYSTEM PLANNED

Toronto, Jan. 9.—Post Office Department will inaugurate a fast mail plane service between Montreal and Winnipeg February 2.

Mail posted here for Winnipeg will have approximately twenty-seven hours over letters sent by rail. Planes leaving here at 1:30 o'clock in the afternoon, it is stated, are scheduled to arrive in Winnipeg at 1 o'clock the next afternoon.

Planes eastbound and westbound will make stops at Hamilton, London and Windsor. Practically all cities and towns in southern Ontario, as well as eastern Canada, will be served by the new service.

Announcement of the service was received here yesterday.

**SIXTY INJURED
IN TRAIN WRECK**

Vilna, Lithuania, Jan. 9.—Sixty passengers were injured to-day when a passenger train en route from Wojtkowice to Ostki crashed into a freight train. The engineer, who was said to have been intoxicated, failed to observe the halt sign two miles before Ostki station. He was arrested.

ASSOCIATION BROADENED

Ottawa, Jan. 9.—C. J. Desbarats, C.M.G., Deputy Minister of National Defence, was unanimously elected chairman of the Ottawa branch of the Engineering Institute of Canada at the annual meeting yesterday evening. The meeting approved of the formation of professional sections along specialized lines, with a start in mechanical and radio sections. This move opens the doors of the institute to many new members.

DRIFT TOWARD U.S. WET LAW SHOWN BY VOTE

Fifty-five Per Cent of National Economic League Is For Repeal of Prohibition

Boston, Mass., Jan. 9.—An interesting change of sentiment on the subject of prohibition is revealed in the result of a vote of the national council of the National Economic League, an organization whose announced purpose is "to create an informed and disinterested leadership for public opinion—a leadership that is free from a partisan bias or class interest and that will be accepted as representing the best thought of this country."

Fifty-five per cent of the 2,633 ballots cast on the question of rejecting or retaining the Eighteenth Amendment favored repeal, forty per cent were against repeal and 100 did not vote. In 1926 a similar questionnaire resulted as follows: For repeal, forty-four per cent; against repeal, fifty-two per cent; not voting, four per cent.

In the event of repeal, forty-one per cent of the voters believed the question of prohibition should be left for the state to decide. In 1926 this belief was held by only thirty-six per cent. Forty-three per cent believed the Federal Government, if repeal were voted, should be given power by constitutional amendment to control the sale of all intoxicating liquors, through federal dispensaries or otherwise, except in states prohibiting liquor traffic.

Members of the council were asked to vote on the manner of dealing with the Volstead Act if the Eighteenth Amendment were retained. Forty-one per cent were for repeal of the act, twenty-two per cent for reinforcing it by more effective provisions, eighteen per cent for modifying it so as to permit greater alcoholic content in beverages, and eleven per cent for retaining it as it is. Eight per cent did not vote. If the act were repealed, thirty-eight per cent favored leaving local enforcement of the Eighteenth Amendment entirely to the states, thirty-seven per cent opposed that method and twenty-five per cent did not vote.

Forty-one per cent, or 1,080, believed the Federal Government (if the Volstead Act is modified to permit greater alcoholic content in beverages) should control the sale of such beverages through federal dispensaries or otherwise. Twenty-seven per cent opposed and thirty-two per cent did not vote.

LEVINE PLANE EQUIPMENT TO BE AUCTIONED

Minneapolis, N.Y., Jan. 9.—Charles A. Levine, first transatlantic plane passenger, has not paid rent on his Roosevelt Field hangar for fourteen months. Yesterday Field Inc. officials said yesterday in Supreme Court, where Justice Byrne granted a judgment and execution order for \$5,108.20 against Levine. The order empowers the field officers to sell sufficient equipment of the Columbia Air Lines Inc., of which Levine is head, to pay the judgment. The Uncle Sam, all-metal monoplane, reported to have cost Levine about \$50,000, is among the things which may be sold.

California Girl Fliers Are Aloft With New Record

Los Angeles, Cal., Jan. 9.—Endurance flying has proved no lark for Bobbie Trout and Edna May Cooper. Nevertheless the girls and their plane, the Lady Ralph, named in honor of the "first lady of California," showed no signs of weakening to-day as they passed the 106-hour mark. If still aloft this evening, the Lady Ralph will have tripled the forty-two hour women's record it exceeded Tuesday.

COMPROMISE IN MINES DISPUTE

Berlin, Jan. 9.—Acting under article forty-three—the so-called dictator clause—of the German constitution, President von Hindenburg to-day intervened in a coal dispute which threatened to tie up the Ruhr mines, signing an emergency decree vesting the government's arbiters with wider powers.

It was expected the dispute would end by to-morrow with a compromise for a six per cent cut in the miners' wages.

Einstein Hears Astronomy Lectures

Pasadena, Cal., Jan. 9.—Dr. Albert Einstein, master of theoretical physics, is to go to school at the Mount Wilson Observatory. He plans to join the seminar of advanced students in astronomy instructed nightly by an observer of the Carnegie Institution of Washington.

One of the interesting things they will tell the Berlin professor about are stars that pulsate, brighten and fade periodically, rhythmically, like a beating heart. These are the cepheid variables.

NEW PLANES FOR FRAIHES

Winnipeg, Jan. 9.—Purchase of three planes from the Laird Company of Chicago, capable of a speed of 245 miles an hour, was announced to-day by the Western Canadian Airways. The trio will augment the prairie air mail fleet. Of a small biplane type, the machines are capable of carrying 800 pounds of mail as well as two passengers.

DISTRESS RELIEF

Lima, Jan. 9.—The government yesterday suspended for six months the law which permits the ousting of tenants when they are delinquent three months in rent payment. The measure, taken to relieve the condition of the unemployed, applies only to those whose rents are under \$10 a month.

EXPORTS OF BACON TO BE INCREASED

Canadian Press

Ottawa, Jan. 9.—More than 500 orders for purchased sows for breeding purposes have been received by the Federal Department of Agriculture since November. A. A. Macmillan, chief of the sheep and swine division of the department, said to-day the aid scheme now was operating throughout the Dominion and, besides the orders received, many inquiries were being made by farmers in all sections of the country.

Largest number of orders has come from Saskatchewan and Alberta, Mr. Macmillan said, due probably to the abundance of low-grade feed available there for stock. The object of the scheme is to increase the exportable surplus of bacon and pork products through assisting farmers to improve the quality and type of their breeding stock. Each farmer receives a specially selected animal of suitable type at cost, plus one-half the cost of freight from the stockyards to his farm.

In commenting on the scheme, Mr. Macmillan said one of its features was the interest being taken by farmers, who were turning to hog raising for the first time as a supplement to their ordinary farming operations.

The scheme was announced by Hon. Robert Weir, Minister of Agriculture, in November.

OLD-TIMERS OF VERNON HONORED

Vernon, B.C., Jan. 9.—The Vernon Rotary Club plans to entertain old-timers in Vernon of forty or more years' residence. Seventeen names have been found so far of men who qualified. The old-timers are to be honored guests at a dinner next Monday evening.

SLOCAN OLD-TIMER DIES

Nelson, B.C., Jan. 8.—George Trickett, Slocan county pioneer, died suddenly yesterday in New Denver. He is survived by a widow, three sons and a daughter.

Cut Your Expenses!

The easiest way to cut expenses and save money this winter is to prevent sickness expense. Thousands of women are adopting the health habit of giving a mild laxative to every member of the family once a week. Thus preventing or checking colds, headaches, dizziness, biliousness, and constipation.

NATURE'S REMEDY—NR—being safe, mild and all-vegetable, is ideal for this family use. Try it and save sickness expense. Only 10c.

Nature's Remedy—NR TABLETS—NR
TURNS FOR THE CORNER! Quick relief for sour stomach, acid indigestion and heartburn. Turns are enticed. Only 10c.

Gas In Stomach Hurts the Heart

Thousands of Cases of Heart Failure Are Caused by Acute Indigestion, Says Medical Writer

Gas pressure from sour, acid, upset stomach is not only nauseating and highly uncomfortable but some day it may prove fatal!

When your meals are followed by bloating, a feeling of fullness or pressure, tightness of breast and pain around the heart, you may be sure that the acid condition of your stomach is producing a GAS that is pushing upwards and crowding your heart. That's the reason for the shortness of breath and sharp, shooting pains.

Whether young or old, the presence of stomach gas is truly serious and should always be given prompt and careful attention.

To quickly banish gas, cleanse and soothe the stomach, neutralize the acidity, nothing is better than the daily use of "needed" use of ordinary laxative. It gives almost instant relief.

A REASONABLE EXPLANATION

IN ITS MANY DISCUSSIONS OF THE price of bread and its relation to the fluctuating price of wheat, The Times has expressed the view that there must be a reasonable explanation why the loaf costs the consumers very nearly as much when wheat is selling at sixty cents a bushel as when it is selling at twice, or even three times, as much. The Times also has said that it believed the consumers desired to be fair in the matter, and that the way to allay suspicion, if suspicion it might be called, that they were not being treated fairly, would be to explain the whole situation to them.

Canadian baking and milling interests have not done this so far; but the committee on agriculture at Washington, as a result of its own investigation into this matter, now tells the story, which appears to have a reasonable ring to it. It has found that the fluctuation in the price of wheat is a very insignificant factor in determining the price of the loaf. For instance, the committee explains that flour represents only a cent and a half in a nine-cent loaf, transportation and distribution accounting for four cents, while the remaining three and a half cents is eaten up by charges for labor, rent, interest, insurance, and, of course, profit. About half a cent, the committee finds, is all the difference in the price of the loaf to the consumer the high or low selling price of wheat would make.

This obviously is an impartial finding and there would seem to be no reason to question its fairness.

TRIBUTES TO VISCOUNT WILLINGDON

ONE OF THE SIGNIFICANT AND ENCOURAGING features of the comments following the appointment of Viscount Willingdon to the very important position of Viceroy of India is a general expression of approval from several distinguished delegates to the Round-Table Conference which has been sitting in London for several weeks. They augur well for the success of his term of office, since they come from those holding various views on India's present political condition, and her hopes for the future. They follow:

"It is an excellent appointment, and will be most welcome in India. He has made himself very popular in Bombay and Madras."—Sir Akbar Hydari, the representative of Hyderabad at the London gathering.

"It could not be better."—The Maharajah of Nawanagar, better known as "Babji," the famous cricketer in Britain in the late 'nineties and the early years of the present century.

"Lord Willingdon was a successful governor of Bombay and then Madras. He worked the Montagu reforms in a liberal spirit. He was particularly strong on racial equality in India."—Mr. Shiva Rao, president of the Madras Labor Union, also a delegate at the London gathering.

"I knew Lord Willingdon very well when he was Governor of Bombay, and I consider his appointment a very excellent one and one which I am sure will be very popular in India. He was very successful and popular in Madras and Bombay. He made friends everywhere."—Sir Chimanlal Setalvad, a leading lawyer and Liberal politician attending the Conference.

"I regard the appointment as good as any that could be made. Lord Willingdon enjoyed great popularity both in Bombay and in Madras, and showed himself possessed of considerable tact and charm of manner. His equipment for the position he is to occupy will secure him against the many pitfalls into which one so highly placed can easily stumble."—Mr. H. P. Mody, president of the Bombay Millowners' Association and an advocate at the Bombay High Court.

It will be observed that these references to Lord Willingdon's qualifications contain an important tribute not only to his success as an administrator, to his popularity, but to the fact that "he made friends everywhere." If ever there was a time when India required a Viceroy able easily to make friends, that time assuredly is the present. And the "many pitfalls" into which one so highly placed can easily fall are not likely to claim one whose experience has been so varied. It is significant, too, that the press, both in Britain and in India, is practically unanimous in its approval of the appointment.

SIR HERBERT HOLT'S OPTIMISM

SIR HERBERT HOLT'S ADDRESS AT the annual meeting of the Royal Bank of Canada yesterday contained a message of cheer which some of our crape-hangers would do well to ponder. This particular passage in his speech is worth noting: "Business and industry have maintained a surprisingly satisfactory volume of activity in Canada as compared with other countries. The stability of our great industries and the strength of our financial institutions during the past year constitute a record which we may view with pride. It is this stability which is the basis of my optimism concerning the future."

As a cautious banker, of course, Sir Herbert implied that complete recovery from the temporary economic recession would depend to a considerable extent upon international developments, especially in regard to the stabilizing of credit and the disposition of the world's gold supply, sixty per cent of which now is held by the United States and France—a condition which is responsible mainly for putting "the potential control of the world's price level in the hands of these two countries."

It is encouraging, however, to observe our financial and industrial leaders giving expression to their confidence in Canada. We want more of this type of Canadianism and less whining from the timid and pessimistic.

A CHILD AND THE TRUTH

ONE OF THE MOST ILLUMINATING stories of recent weeks, it seems to us, is the one telling how a rich Parisian has sued the tutor of his son for telling the boy that there is no Santa Claus. This story came over the United Press wires, and

told how Marcel Dauprey hired a professor to coach his seven-year-old son in order that the boy might not acquire worldly knowledge at too early an age. The professor did his best, but he did break the news about Santa; and now M. Dauprey has sued him, charging that this bit of information caused the son "moral harm."

This misadventure is somehow characteristic. What parent, undertaking to bring up a child in the way he should go, has not bumped into just such a disappointment? All of us resolve that our own children shall be disillusioned about the world just a little more gently than we ourselves were disillusioned. We take especial pains to let their trailing clouds of glory hang about their shoulders as long as may be; and then, one day, we wake up to discover that they know a great deal more than we had either supposed or desired.

All of this is perfectly natural; and unless one raises his son on a desert island, it is inevitable. For while children are given, by their parents, rose-colored spectacles to look at the world, they have a way of taking them off whenever they can and finding things out for themselves. We older ones, knowing how cruel the world can be, are sentimentalists; the children, knowing nothing whatever about it and expecting the best, are little realists.

Indeed, they do not always expect the best. Who has not surprised his son or daughter suspecting that all is not quite for the best in an imperfect world? Parents want to shield them, and try to, staving off unpleasant knowledge as long as they can; but children get around them, collecting unpleasant data about the cosmos as eagerly as so many writers for certain kinds of magazines.

And it is probable that this is a good thing. For the longer we postpone disillusionment, the more painful and crippling it is apt to be when it arrives. The youngster who is used to it from an early age stands a much better chance than the one who has been too carefully protected.

Perhaps that is why such an enormous proportion of great men began their lives amid poverty. The children of the poor soon learn to see the world just as it is. Their illusions, of necessity, die early. Is that one reason why the log cabin has sent so many more men to eminence than has the mansion of the rich man?

The London Times on Mr. Winston Churchill's recent speech in reference to India: "Mr. Churchill may fairly claim that his speech is matched by corresponding efforts in India to spread distrust of the Conference, of the delegates, of the possibilities of an honorable settlement. But he is no more representative of the Conservative party than the assassins of Calcutta represent the Indians at the Round Table. And his speech will have just as little influence upon British policy towards India."

The current issue of The Business Week of New York has this to say about the year now past and the prospects for the year which has just begun: "Though the death-rattle of 1930 is sufficiently sweet music in everybody's ears, the finale of the rather sad symphony of the past year adds some reassuring notes. . . . The records of the last week of the year are much less feeble than was expected, and are in some respects more encouraging than those of 1929. Our index rose again, from 76.9 per cent of normal to 77.8 per cent. . . . Building contracts, merchandise carloadings, steel production and check payments have held out surprisingly well against seasonal declines that might have been much more severe at the end of a bad year. . . . Basic commodity prices seem to have exhausted the possibilities of further decline. . . . Though the tangible effects of lowered Federal Reserve discount rates on the bond market are still to be tested, increasing support may be expected if the usual contraction of outstanding reserve credit is not insisted upon when the large volume of currency in circulation returns to the banks in January. . . . Business sentiment is steadier and more alert, and the railroad consolidation news strikes a constructive note to start the new year. . . . It is still hard to see very far into 1931, but the atmosphere is slowly clearing, and we can give 1930 a good swift kick into oblivion with more confidence that it won't return."

WHAT OTHER PAPERS SAY

THE LAST LATON
The Ottawa Citizen

The Conservative magic has so far utterly failed to work. The promises of the orators have utterly failed to be fulfilled. The miracle-men of the party are under suspicion. If an election were held in the Dominion to-day, the Conservatives would undergo a similar experience to that which they underwent in 1926—they would fail to elect a single member from the Great Lakes to the Rockies. Their gaudy castles in the air, painted with such fervor last summer, are crashing down upon their heads. From the ruins arises a grim climate, encouraging growth of weeds. That figure, the disillusioned Canadian elector. Make no mistake, the critics of the Liberals in Ontario are due for a laugh on the other side of the cheek. The signs are ominous, and it is only the complacent who fail to see them.

Incidentally, to criticize as anomalous the situation wherein Mr. Heppburn is at one and the same time a member at Ottawa and a leader of a provincial party is an equally short-sighted pose. What about Dr. Talmie?

Twenty-five Years Ago To-day

THE VICTORIA DAILY TIMES, JAN. 9, 1906

Preparations for the annual show under the auspices of the Victoria Poultry Association are proceeding apace. It will be held on Thursday, Friday and Saturday at the market building, and promises to be the most successful in the annals of the organization.

What may be considered the opening gun of the municipal campaign will be fired this evening at a meeting of the electors of North Ward, to be held in the assembly hall of the school building of that district. As mentioned in The Times yesterday, both majority candidates, Charles Hayward and A. J. Morley, will be present, having agreed to a proposal for a series of combined meetings preceding election.

Weather forecast—Victoria and vicinity: Light winds, chiefly northerly; generally fair, and cold at night.

Since December 10, the steamer Eleric, Captain Findlay, has been en route to the Royal Roads from Panama. The ship arrived at an early hour this morning. Considerable anxiety has been felt, the vessel, but it was learned to-day that the delay was entirely due to bad weather.

Loose Ends

Some sober reflections on a frothy subject—On Victorian civilization—On white "fulks" and red "spades"—On green bicycles and innocent old gentlemen.

By H. B. W.

VICTORIA should vote for beer, it would be too bad. It would be too bad for this I should lose my faith not only in the good sense of this community but also in its aesthetic instincts. For, all questions of temperance and morality aside, most beer parlors are highly objectionable. I cannot claim any wide experience with them, but wherever I have been in a beer parlor, I have wondered why British Columbia did not bring back the beer outright instead of maintaining this cheap and cheerless hypocrisy. It is a covert, slinking thing, and to my mind the most melancholy place imaginable. Indeed, I know many men who drink beer at home (and make it, too, for that matter) who will not go into a beer parlor for the same reason that they won't go into a pig pen.

FOR the argument that beer parlors increase morality, the answer is that if it is more moral to get drunk on beer than on whiskey, then they are highly moral. They must drink with morality, for I have never been in a beer parlor without finding there men sodden with that peculiarly disgusting addendum which comes from "beer." The outlying small towns of the province, which I know quite well, some towering loggers or miners, sober and moral but beer because he couldn't buy whiskey, always wants to fight you forthwith.

VICTORIA RIGHTLY has a reputation as a place with courage enough to pursue its own way, whether it is the best way or not—a city with a definite character of its own in a civilization which is rapidly effacing all character and creating instead a machine-like sameness everywhere. Victoria also has an outward aspect, a look of cleanliness, freshness, decency and quiet which is the surprise and admiration of all visitors. It is worth while maintaining it so much for the grosser object of bringing tourists as for our own satisfaction. Beer parlors, I feel, can contribute nothing to that character. They will only show that we have no better taste, no more imagination, than other cities.

LET US consider something Victorian that is more cheerful. Under the outer crust of our Island civilization, if you will look hard enough, you will find the flame of the human spirit burning as bright and clear as ever. A trifle and obvious when you will say, but wait until you hear what provokes it. What provokes it is my discovery that the great Beaver Movement has spread to these shores and it is already organized on a grand scale here in this unsuspecting city. Now, the Beaver Movement, founded in England after the War, is the result of high-spirited Anglo-Saxons against the intolerant dullness of modern life. It is a respectable kind of activism, a survival of primitive instincts, a refusal of natural barbarians to adopt civilized ways, the enduring urge of the hunter.

BEING UNABLE to hunt as their remote ancestors did, the followers of the Beaver Movement, as you know, hunt beavers, and even beavers aren't what they used to be. Beavers are simply unfortunate men with beards who are fair game anywhere. Anyone may shoot them, and as they never know they are being shot, the hunter is most humane. As I say, everyone knows that beaver shooting was a popular sport in England after the War, but I did not know until recently that it was being carried on secretly here in a big way.

YES, VICTORIA is full of beaver hunters, and I have the word of one of the most distinguished of them that more beavers are shot on the streets of this city every day than in any part of the world per capita. This mighty hunter's theory is that our mild climate encourages growth of beards, with the result that game is plentiful, varied and not difficult to shoot. A pair of beaver hunters (they always hunt in pairs, for the sport is not without its dangers) can walk down Douglas Street any day and be sure to sight a beaver in every block. The first one to see him merely has to say "Beaver," in a discreet whisper to his companion, and the poor bearded gentleman is registered as duly "shot."

BUT BEAVER hunting, I learn from my friend, the mighty hunter, has developed rules and fashions of its own as elaborate as any followed in the other fields of sport. Thus a white beard like Santa Claus wears—called a "trimmed black one" is worth only two, and a goatee a mere one. Beards cut square "spades"—are more valuable, counting ten, and a red beard arranged in wavy twenty-five. But the prize for which all beaver hunters the world over are seeking, the incomparable but illusive quarry which has foiled all attempts to shoot him is a red "spade" riding a green bicycle. Anyone who captures him will get 100 points and will be acknowledged by all beaver hunters everywhere as the champion of all time.

MORE INTERESTING still, I am able to inform the readers of this column in strictest confidence that Victoria is likely to produce the champion of all time at any moment. The beaver hunters of Douglas Street have found a gentleman with a red beard. More than that, incredible as it may

seem, they have found a gentleman with a red beard who rides a green bicycle. But, alas, he does not cut his beard straight across the chest to form a "spade." It is a "full," spreading in all directions resembling, according to my informant, a flaming sunset. But the beaver hunters of Victoria are not going to be fooled when they are so near their prey. This mustn't go any further, of course, but I learn that an elaborate conspiracy is under way to convert the "full" to a "spade." It is planned to induce a certain unsuspecting beaver into the Brotherhood of Beaver Hunters and then force him, through his loyalty to the brotherhood, to trim the red "full" into a red "spade" when the innocent gentleman with the green bicycle is lying back in the barber's chair, eyes closed. And if this foul thing is done, if the poor gentleman enters the barber's shop a "full" and comes out a "spade," it be mounts his green bicycle, and is shot by the ambushed beaver hunters, then the shooting will be announced exclusively in this column. What I really wanted to make clear, though, was this—what a city can produce the exquisite spectacle of a red "spade" or even a red "full"—riding a green bicycle, when civilization has reached such a pinnacle why sport it all with such things as beer parlors?

Reason for the collapse in egg prices here is the lack of buying power on the part of consumers, according to a statement issued to-day by the Department of Agriculture. The department's statement quotes Sales Manager Shullenberg of the Washington Co-operative Egg and Poultry Association, who has returned to Seattle after spending three months in the East. He says that the recent price in the egg market which sent prices to 18 to 20 cents under normal, for this season, was due almost entirely to the lack of buying power. The break in the wheat and stock market caused unemployment in the West and a consequent drop in the price of eggs and poultry. He described the depression. He described the break as the worst in history, but it is due for recovery which he expects will be of a gradual kind.

Those in the egg trade here added that other factors in the egg slump were the general downward tendency in all commodity prices. The mild open winter, the fact that egg prices had been artificially forced up above their natural price level in comparison with other products, and overstimulation of production as a result of egg pool activities.

Eggs in storage in Canada have increased 500 per cent during 1930, from 800,000 dozen to 4,300,000 dozen. This enormous surplus overhanging the market will tend to keep prices down until it disappears, it is feared.

Sydney, N.S., Jan. 9.—Appeal papers seeking revocation of the death sentence passed on William Macaskill of Bay St. Lawrence will be filed at the Supreme Court on January 12, the day he was to have been hanged at Baddeck for the killing of Norman McPherson. The condemned man was recently granted a forty-five-day reprieve.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and snappy. The longer the letter, the shorter the chance of insertion. All communications must bear the name and address of the writer. The publication of letters is at the discretion of the Editor. No responsibility is assumed by the paper for the contents of letters.

DR. DAVIES REPLIES

To the Editor:—Your correspondent, Mr. Purdy, states in your last evening's columns, that the heads of the Prairie Wheat Pool deny a bona fide offer was made by the Hon. J. H. Thomas of \$1.47 a bushel for the Canadian wheat. Mr. Thomas declared in the House of Commons that he did make that offer, and that his offer was rejected; that the Pool heads held out for \$1.75 a bushel, and told him that if he failed to accept that offer the price would be \$2 in the spring.

We can take the word of the Pool heads, who have since been removed for their inefficiency and bungling, or for the word of a responsible British statesman. As for the farmers' sufferings, those of us including myself who have lived and worked on the prairie know of their sterling qualities and their hardships, and that their labor is the basis for any prosperity to which one does not blame them. It is the folly and stupidity of the Pool heads which have well-nigh wrecked our Canadian wheat market.

I must ask your correspondent when in the course of my address to which he refers, I recommended, as he states, "revolution." A stenographic report of that address fails to include such sentiments. Indeed, I proposed exactly the opposite, and warned my audience to use the legal means now in their hands to bring about better conditions. Surely your correspondent misunderstood me.

CLEM DAVIES,
Minister, City Temple, January 9.

BEER BY THE GLASS

To the Editor:—As we are only now one week from the vote to be taken on the question of allowing beer parlors to open in Victoria, it behooves all those who are opposed to them to do their utmost to defeat this measure and to vote by a large majority "No." We had this question voted on a few years ago and by a large majority we defeated it. And now again we are forced to fight this iniquitous proposal. I would like to know who wants beer parlors in Victoria, and who is responsible for the petition that was circulated from house to house last summer?

It certainly was not the general public, nor the City Council, nor the government, as I don't think any of these want it, but it was circulated by the brewers so they could sell more beer and make more profits for their shareholders. We have government control stores in the city now where any one can purchase beer if he wants it, and that is certainly enough to satisfy our young men and young women are tempted to go. There are many of our young people to-day who never touch drink of any description if it were not under their noses. We know how hard it is to keep our young people away from the open bar back again in their midst. Again, when we have so much unemployment in our midst, and the government and city doing their utmost to feed and clothe the ones out of employment, what then, make it worse than what is? For it is certain that money spent in beer is not spent in either food or clothing. So it is up to the churches and social clubs, youth clubs, and other organizations, to do their utmost to defeat once and for all by a large majority the so-called beer by the glass parlors. And to see all the churches of all denominations both large and small, next Sunday denounce this measure and so preach to the people that when the vote is cast next Wednesday the answer will be "No" by a large majority.

Princess Louise Lying In State At Royal Chapel

London, Jan. 9.—The body of Louise, Princess Royal, lay to-day before the altar in Albert Memorial Chapel, preparatory to funeral Saturday. She died Sunday.

The motor hearse was delayed ninety minutes bringing the body from Windsor to London last night because of the fog. The removal was without ceremony.

The court returned to London to-day from Sandringham so that the King, Queen and other members of the royal family may attend the funeral. The King and Queen came down by train with the Duke and Duchess of York and went to Buckingham Palace where they will remain over the week-end returning to Sandringham next week. The Queen and the Duchess were dressed entirely in black and the King and his two sons wore long, black overcoats.

Air mail service between Havana and other leading cities of Cuba has just been inaugurated.

YOUR BABY and MINE

By MRS. METER LORDE

Mrs. Lorde will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

CHILD WITH COLD SHOULD BE KEPT AT HOME

The frequency of colds during the winter season tends to make us indifferent to them. "Oh, it's just a cold," signifies our attitude that it is something to be suffered and disregarded. Yet colds are the forerunners of a number of the children's diseases and of pneumonia. Mothers and their children to school provided with plenty of handkerchiefs and the oft-repeated warning not to sit on the cold ground or on cement steps, but with no feelings of conscience because of the many children their own may infect at school.

COLD GERMS LODGE IN NOSE

Some recent experiments upon apes and a group of humans, who volunteered as experimental material, made it certain that the germs of the common cold are lodged in the nasal passages. Both apes and humans can develop a cold simply by having some of washings from noses of sufferers put into their noses. Such knowledge is wasted unless mothers are social-minded enough to prevent their sneezing, nose-blowing children from coming in contact with healthy children. Our two leaflets pertinent to this subject and the season are "Six Reasons for Catching Cold" and "Home Care of a Cold." One or both may be helpful for parents and may be secured by sending a self-addressed, stamped envelope with your request to the "Your Baby and Mine" department of this newspaper.

Coming in contact with someone who has a cold is, then, the first and foremost reason for catching cold. But mothers assure that their baby has seen no one, but catches cold each time he goes outdoors. What about it? It is possible that a child so susceptible to colds lives in a super-heated atmosphere and has an old-fashioned mother who keeps him swaddled in woollens—one can hardly buy them ready made for the modern baby any more. In that case the prodigious effort which his skin would have to make in changing from the hot house to the cold winter atmosphere would be too difficult, and the child would catch cold.

Diets during the winter are almost

always of the "heating" foods, which usually means acid ash foods. Eggs, meat, cereal, breads and fats in excess all contribute to the body acidity and we are told that an acid condition makes us more susceptible to cold germs.

A baby or child who catches cold from whatever cause should be in the house. The child with a fever should likewise be in bed. There should be daily baths and a light, easily-digested diet. Medicines of any kind should be advised by a doctor, for home doing is always to be deprecated. When the weather is clear and the temperature not below zero and the child's fever gone, he will profit by a short stay outdoors, providing he is kept from contact with other children.

To-morrow: "Child's Ability to Chew Related to Whole Muscular Development."

EVERY WORD HAS TWO MEANINGS ALL ITS OWN

American Woman in England
Bewildered; Crackers Are Biscuits; Cars, Trams

Canadian Press

London, Jan. 9.—An American correspondent of The Manchester Guardian, resident in this city writes of some mothers' problems in the acquisition of a vocabulary.

VESTS OR WAISTCOATS

"Even after six months in the country, I sometimes have to refer to the cook for a translation of some item in the grocery or laundry book. And often when shopping I hunt for what I want, when my name for it conveys nothing to the salesman. Especially with children's clothes does the language vary even more than the style, so that I have at first been puzzled to me. I have learned now to say vest for undershirt, and waistcoat for vest; I can say suspenders for garden hose and back for suspenders. But it still seems strange to say knickers when I mean bloomers, for knickers to us are plus fours. A bodice is now a child's undershirt. Goggles (which mean arctic or high overshoes for snow) are ordinary rubbers, while rubber boots parade gallantly as Wellingtons. Your jerseys, jumpers, pullovers and cardigans are content to call themselves sweaters with us, and I have yet to discover when a suit is a costume and when it is not.

"I go to the draper's shop, or dry-goods store, for some unbleached muslin. I find I am buying calico, although my idea of calico is a cheap cotton print. Again I want some Peter Pan collar cloth for a little girl's blouse. The man behind the counter suggests cotton gab or organdie. At least linen and gingham hold their own identity in the two languages, but good old flannel changes its spots at intervals, and common cheese-cloth has become butter muslin. I try to buy cutting flannel for the little boy's pajamas, and find I mean windowlet for sleeping suits. And, of course, my spool of thread has become a reel of cotton.

BISCUITS ARE CRACKERS

"The usual English-American joke is biscuits and crackers. I shall not attempt to define either term. I only

know from experience that I said cracker, meaning biscuit, and got those Christmas paper bonbons that crack when pulled. But the maid has to step in and translate pieces for sugar, streusel cakes for lean bacon, gammon rasher for a slice of ham. Treacle I know of from Alice in Wonderland; but I didn't know it was cross between syrup and molasses. To get a steak rare I must order it underdone. And at the butcher shop the top of the round has become a piece of topside. Cereal is now porridge. To go to the bakery is an ordeal. Rolls, biscuits, muffins, cookies, have all changed into something else. I can only point to what I want, avoiding my name, like a deaf mute or a real foreigner.

"I am used now to booking seats

instead of buying tickets, and riding on trams instead of trolley-cars. I can say will now instead of ruse, and I remember that the baby's bid is a cot instead of a crib. The kitchen is now the scullery, the pantry is the larder. Gasoline has become petrol, sewerage is paraffin, and paraffin is paraffin wax. But the queerest of all is that my nurse says she is going to bath the children or give them a bath, while I tell her to bathe the children or give them a bath."

C.G.I.T. Heads

Plan Festival For February

The Victoria C.G.I.T. Leaders' Council held a very successful supper meeting in the Y.W.C.A. on Wednesday, with the president, Mrs. H. Nixon, in the chair. During the business period further plans were made for the C.G.I.T. festival to be held on the evenings of Friday and Saturday, February 27 and 28, by the courtesy of the Victoria School Board in the gymnasium of the Victoria High School. A splendid program of singing, dancing, in which every Canadian Girl in Training in the city will take part. The announcement was made by Miss Beall for the regular meeting of the Girls' Council to be held on January 24 at 6 o'clock in Fairfield United Church. At the next Leaders' meeting on February 10 at 7 o'clock in the Y.W.C.A. an interesting feature will be a debate on "Youth vs. Age in Leadership."

L.O.B.A. Sewing Circles—Britannia Lodge, No. 216, L.O.B.A. held its regular business meeting on Tuesday, when arrangements were made to hold the usual sewing circles. The first will be held on Wednesday at the home of Mrs. Hay, 493 Sturdee Street, Esquimalt.

Perfect Sight—Without Glasses

Practically every known eye trouble—even partial blindness—has been benefited and entirely cured by a new technique. Far sight, near sight, astigmatism, cross-eyes, squint, cataracts—all have been successfully treated without medicine, operation or optical aids of any kind. If you suffer from any form of eye trouble call at once and learn how you can have better eyesight, better health, a richer life—unimpaired by glasses.

BY ROBERT GUILLEN

"I reckon most women marry for love, but you can't love a man if you don't respect him and you can't respect him if he ain't a good provider."

(Copyright 1931, Publishers Syndicate)

Mrs. Guy Shaw New President Of Scout W.A.

The annual meeting of the Women's Auxiliary to the Victoria Boy Scouts' Association was held at district headquarters, 1034 Johnson Street, yesterday, when the election of officers for the ensuing year took place as follows: Patroness, Lady Barnard; honorary president, District Commissioner Lord Colville; president, Mrs. Guy Shaw; first vice-president, Mrs. Moon; second vice-president, Mrs. G. H. Bissell; secretary, Mrs. C. W. Dixon; treasurer, Mrs. Aaronson.

Mrs. G. H. Bissell, the retiring president, thanked the ladies for their help and support during the past year. Following this a social hour was spent, the past officers entertaining the auxiliary.

Thanks were tendered the following for their services during the past year: His Honor the Lieutenant-Governor and Miss McKenna for the use of Government House grounds for Scout garden fete; Kent's and Fletcher's for the use of Orthophones; Mr. Bullock-Webster and Mrs. Wilfred Ord, recitations; Miss Violet Powkes, dances; Mrs. Finnmore and Mrs. Gordon, fortune telling by cards. Thanks are also due the Girl Guide Association for the attendance of their executive officers at the various silver teas, also for their kindness in granting the assistance of several Girl Guides to assist with the tea at the garden fete.

Thanks are also due to The Daily Times and Daily Colonist for space granted in their pages for the publication of notices and announcements, etc.

In 5 Weeks One

Thin Woman

Gained 15 Pounds

"Dear Madam: If you need more good solid flesh to fill out unsightly hollows in neck, cheeks and chest why not start to-day to get it? Further delay may be dangerous, so why not go to any live druggist and get a box of McCoy's Cod Liver Extract Tablets—they are sugar coated, small and rich in the weight building substance extracted from codfish livers. And while you are putting on weight with McCoy's you'll also gain in energy and physical attractiveness—eyes will brighten—skin blemishes vanish.

Sixty tablets for 60 cents—take them for 30 days faithfully—then if you are not satisfied with gain in weight and improved health get your money back—just ask for McCoy's. (Adv.)

IMMACULATE!

Sketch Club—The Sketch Club of the Island Arts and Crafts will meet on Monday afternoon at 2 o'clock sharp, in the newly opened Island Arts and Crafts Club rooms at the corner of Langley and Yates Streets. The winter sketching will continue and models will be provided. A full attendance of members is expected.

Alexandra Club—Guest Day at the Alexandra Club, which was to have been held on Tuesday, has been postponed until Wednesday, January 14.

recapture those HONEYMOON THRILLS

Here's a way to win back the youthful charm that made Romance come true... Read the route now taken by so many happy women

DO THEY seem so far away—those glamorous honeymoon hours? Has Romance languished under the burden of household routine? Have you and he, all unawares, drifted apart a little because you are too worn-out to give him the companionship he craves? Frank questions, these! But the time to face the facts is NOW. You can gain the leisure to look—and feel—as charming as you did then! Take

the first step at once, by banishing washday! This one task is the greatest thief of youthful beauty.

Today hundreds of women in this community "let the Laundry do it." They know that our better laundry service safeguards their clothes as well as their energy. They have learned that

this new service is amazingly thrifty—costs but a trifle, yet means so much in happiness!

Industry, making a fadometer test. This instrument helps determine color fastness of cloth. Studies like this make our laundry service safe for your most delicate garments.

Stars of Last Year To Compete In High School Gala Next Week

HE Keen Contests Promised When Students Clash

Who Can Take English Cup Away From Arsenal This Season?

Great Fighting Spirit May Carry Red-shirts to Another Win

Big Difference in Earning Power of Golfer and Horse Star

Dempsey Has Bigger Drawing Power as Referee Than Fighters

With the third round of the English Cup scheduled for Saturday, and the First and Second Division teams, engaging in their first matches in the series, football fans are asking themselves the question: "Who can take the cup away from Arsenal?"

"Who are the cup-holders' chief rivals?" The table suggests Sheffield Wednesday, Derby County, Aston Villa and Portsmouth. Of the other clubs well up in the standings West Ham seem light in attack for the heavy warfare the cup can provide. Blackburn's punch may be useful, but they seem to be short of skill in attack. Huddersfield Town is a doubtful quantity—perhaps a dark horse. Middlesbrough and Leicester seem uncertain. So do Bolton, who are rebuilding. In cup talk Newcastle appears to have fallen right out of favor.

Whether Aston Villa will be able to triumph over the cup-holders will be determined on Saturday, as they have been drawn against Arsenal in the opening round. This will be the feature match of the third round matches. Since professional football entered English football, only Blackburn Rovers, in 1890 and 1891 have won the cup in successive seasons. Newcastle—the real Newcastle—have been the only challengers. They won the famous cup in 1910, but lost the final of 1911. Much can happen, of course, but to-day Arsenal's flaring red colors are a danger signal to be heeded by opponents. In fact, they are more dangerous in the cup than in the league, through their great fighting spirit.

It is strange, indeed, that the owner of a thoroughbred capable of negotiating the mile and one-quarter of the Agua Caliente Handicap (about twenty-four miles) of the Agua Caliente Open gets only \$10,000.

The pro golfer stands many miles of plodding for four days gets repaid only one-tenth of what the equine star draws—\$100,000—for a two-minute gallop around a two-mile-groomed oval. Quite a difference.

When it is learned that Jack Dempsey drew down \$11,000 for refereeing a bout in Minneapolis recently between Dick Daniels and Alex Okun it is quite easy to believe the statements of promoters that Jack is making the money. Just figure Dempsey's drawing power, and it appears to be a case of referee drawing more than the fighters. Try to imagine an umpire drawing more people into a ball park than the players.

Dempsey's bookings for this month form an interesting study. From Galveston he will go to Fort Worth then on to Dallas. From there he will proceed to Newark, N.J., after which he has an engagement at Baltimore. From there he is due to go to Washington to officiate at a wrestling match. From Washington he travels to New Orleans to referee the Canzoneri-Farr bout. Then he is booked to go to Mexico City. From such an outline it is not hard to figure Dempsey's netting more than \$100,000 a year, even though he spends quite a lot along the way.

Several times the name Cook appears in the summaries of National Hockey League games. But this is not a case of too many cooks spoiling the broth.

Add to your other unsolved problems of 1930—the world's flyweight championship.

Bill Tilden retired again the other day. Just to make it sort of emphatic.

In entering the mists, Tilden is merely changing the scenery. He always has been an actor.

Len Harvey, British middleweight champion, wants a crack at Mickey Walker. And he's not the only one, including the New York Boxing Commission.

Does anybody remember those dear old rosy days when pocket billiards was known as pool?

New York Jockey Club Makes Change In Racing Season

New York, Jan. 9.—In an attempt to give the metropolitan district a better balanced racing programme, the Jockey Club yesterday slashed ten days off the autumn season and added six days to the spring and summer meetings.

As the result of the turf board's action, the thoroughbreds will race over New York tracks 160 days in 1931 as compared with 173 days last year. The season will open as usual at Jamaica and close at Empire City, but the seasonal race will be run on April 19, one day earlier than in 1930, while the Empire City will close on October 31, a week sooner than last year.

Will Strive for Aquatic Honors at Crystal Garden Next Friday Evening; Entry List Shows Several Good Contenders Ready to Face Starter in Annual Event; G. Wellburn, A. Baker, J. Newbiggin, K. Billingsley and A. McKeachie Figured to Put Up Fast Races; Eleanor Peden Counted On to Take Girls' Events.

Entries for the Victoria High School swimming gala to be held at the Crystal Garden a week tonight have been coming in regularly and already several good races are assured in the different branches of the programme. Stars of last year will be back in the contests to defend their honors against promising young juniors who have been developing during the summer.

DIED TO-DAY

WAYNE MUNN

San Antonio, Tex., Jan. 9.—Wayne Munn, thirty-five, former heavyweight wrestling champion, died early to-day in the base hospital, Fort Sam Houston, from Bright's disease.

Munn is survived by his widow, Edna W. Munn; a daughter, Mary Ann; three brothers, Monte, Wade and Glenn; and a sister, Elizabeth Ann.

The giant athlete, who gained fame in football at the University of Nebraska and later became recognized as world's heavyweight wrestling champion by defeating Ed "Strangler" Lewis in Kansas City in 1925, came to San Antonio for treatment about a year ago. His father-in-law lives here.

Munn refereed a few wrestling matches, gave exhibitions on request and spoke before schools and clubs, but his condition gradually failed and about ten days ago doctors put him to bed as gravely ill.

CAMPBELL TO LEAVE SOON FOR FLORIDA

British Racing Driver Sails For U.S. Next Wednesday With New Bluebird

Will Try For World Speed Record; New Car Has Centre of Balance Off Centre

London, Jan. 9.—Capt. Malcolm Campbell, British racing driver, will sail for New York next Wednesday aboard the Homeric with a new Bluebird said to be his most powerful racing machine.

He will take the automobile to Daytona Beach, Florida, where he plans to seek a speed above 231 miles an hour, the world record. At his office it was announced rumors he was going elsewhere were groundless, and that he definitely would make the attempt at Daytona, which he considers the best racing beach in the world.

His world car has the centre of balance off the centre to the right. It was exhibited here this week beside a fleet of motors picked by the Prince of Wales for his South American trip.

Tom Newman Still Leading Davis In Billiard Play-off

London, Jan. 9.—Tom Newman, closed with 15,004 points, and Joe Davis, English champion, with 12,299 in their billiards match yesterday, to decide which of the two shall meet Walter Lindrum, Australia, for the international title. Newman's score included a break of 1,033 points. A present match, still in its first week, is to last a fortnight.

George Wellburn, brother of Tom Wellburn, for many years sprint champion of British Columbia. Allan Baker, promising Y.M.C.A. junior. Jimmie Newbiggin, Ken Billingsley and A. McKeachie, seem to be the most outstanding contenders for the boys' swimming honors, while Harry Halka and Baker should be among the leaders in the diving.

Eleanor Peden, winner of the girls' aggregate point cup and all-round high school star mermaid, is expected to have a stiff fight with Kewpie Unsworth. J. Peetz and Lillian Stokes in the girls' events, but is counted on to finish in the lead.

Virtually all competitors have displayed their prowess in the water in previous meets, and should have improved considerably since last year.

GOOD RELAY EXPECTED

In what promises to be one of the features of the meet, relay teams from the matric, junior and preliminary teams will race in special balloon and cork events which should add to the novelty of the programme.

Very few entries have been received for the girls' races to date, but a number are expected to be filed this afternoon before the list closes.

Virtually all the outstanding competitors of former years, who have not matriculated, are included in the number who have stated their intention of swimming. Several of them have swum against one another in former meets, and are anxious to renew conclusions with their old rivals when they line up next Friday.

All girls' races will be swum over the fifty-yard route, and will be restricted to age limits. Kewpie Unsworth is expected to win the event for girls under fifteen, while her sister, Molly, and J. Peetz are counted on to stage a good duel in the race for those under sixteen.

Plans are being made to have some elimination heats at the Y.M.C.A. on Monday afternoon.

ENTRIES FILED TO DATE FOLLOWS:

BOYS' ENTRIES
Fifty yards, under 15—Kewpie Unsworth, George Ford.
Fifty yards, under 16—J. Peetz, M. Rank, M. Unsworth.
Fifty yards, under 18—M. Rank and L. Stokes.
Fifty yards, backstroke—J. Peetz, Coline Cockran, Molly Unsworth.
Diving for plates—Judy Peetz, Kewpie Unsworth and Coline Cockran.

BOYS' ENTRIES
Fifty yards, under 15—R. McVey, G. Wellburn, G. Forbes, A. Baker and W. Griffiths.
Fifty yards, under 16—G. Wellburn, R. Griffiths, S. Metcalfe, P. Bond, H. Armstrong, W. Hallowell and J. Newbiggin.
Fifty yards, under 18—A. Baker, G. Moore, S. Metcalfe, K. Billingsley and A. McKeachie.

Girls' Entries
Fifty yards, freestyle—A. Baker, K. Billingsley, G. Lee, G. Moore, J. Temple and J. Newbiggin.
Plunge for distance—E. Boss, K. Billingsley, P. Bond, A. Baker, G. Lee, A. McKeachie and G. Moore.

Girls' Entries (optional)
Halka, G. Lee, A. Baker, P. Bond, I. Fuller, K. Billingsley and A. McKeachie.
Diving for plates—H. Halka, I. Fuller, G. Lee, W. Hennings, J. Hallowell, K. Billingsley, A. Laird, C. Andrews, G. Macdonald, L. Peters, A. MacGregor, W. Mair, J. Robb, P. Bond, W. Outwaite, E. Boss, A. Baker and A. McKeachie.

Ballon race—G. Williams, E. Hallowell, I. Fuller, L. Peters, A. Baker, G. Wright, G. Macdonald, P. Bond, W. Mair, J. Newbiggin, S. Metcalfe, R. Griffiths, G. Moore and K. Billingsley.
Cork race—G. Wellburn, L. Peters, A. Baker and J. Newbiggin.

Inter team relay—Matric team, second year team and first year team.
There will also be a water polo game offered as a novelty with Johnny Newbiggin skipping one squad and Ken Billingsley the other.

James J. Jeffries Wins Court Battle

Los Angeles, Jan. 9.—James J. Jeffries, former heavyweight boxing champion, won a superior court battle here yesterday for \$313.

Fred Hanks, had obtained a judgment for \$600 on battery charges against Al. Morro, a young heavyweight, Jeffries is managing, but was unable to collect. Hanks attached the sale receipts of a house in which Morro boxed. Jeffries intervened with a preceding claim for \$313 as Morro's manager and trainer. The court upheld the claim.

IONIA STATE VS. DRAKE, 1925. TEN MINUTES TO PLAY, IONIA LEADING 7-0 ON 4TH DOWN IONIA QUARTERBACK RAN BACK 25 YARDS OVER OWN GOAL LINE, SCORING SAFETY - 2 POINTS - FOR DRAKE. DID THIS THREE TIMES, IONIA KEEPING BALL TO END OF GAME GIVING DRAKE NO CHANCE FOR TOUCHDOWN - FINAL SCORE IONIA 7, DRAKE 6. BECAUSE OF THIS TRICK RULES CHANGED REQUIRING KICK AFTER SAFETY.

PORTLAND IN EASY VICTORY OVER LEADERS

Buckaroos Turn on Vancouver to Score 5 to 1 Win in Coast Hockey

Conn Nets Pair of Goals; Bucks Tied With Seattle For Second Place

Portland, Ore., Jan. 9.—Portland to-day shared second place honors with Seattle in the Pacific Coast Hockey League standing as a result of the Buckaroos' 5 to 1 victory over Vancouver here yesterday evening. Vancouver leads the league. Portland scored in every period while the Lions' lone tally came in the second period.

Jimmy Evans, former centre of the disbanded Tacoma team, passed to Army Armstrong who was near the side boards four minutes after the game opened. Armstrong banged the puck toward the net and Percy Johnson, Vancouver goalie, attempted to kick it away as it came in knee high. He missed it and the rubber crashed the net.

The first goal of the second period came on a three-man rush through the Vancouver defence five minutes after play began. Joe McGoldrick, assisted to Maher who sent the puck into the net. Thirteen minutes later McGoldrick took Red Conn's pass and beat Jackson with a shot to the corner of the net.

ARNOTT SCORES
The puck had hardly been put in play after the score when Arnott, Vancouver defence five minutes after play began. Conn's long, hard shot, fired period, Conn's legs before the puck could stir to stop it. Sixteen minutes later he sent the puck into the net after a beautiful combination play with Coupes.

Conn and McGoldrick maintained their positions as league leading scorers. McGoldrick and Brennan blazed forth with a flat fight in the final period. Both were given ten minutes to cool their skates and Brennan was fined \$5 in addition.

The line-ups:
Vancouver—Jackson; Brennan, Arnott; Jerwa, Sanderson, Dunn, Sub. Repath, Blythe, Osmundson, Pettenger, Carr.
Portland—Attkinhead; Roultson, McGoldrick; Conn, Maher, Downie, Sub. Coupes, Evans, Pool, Towl.

OFFICIALS—Portland and Riekey.

SUMMARY
First period—1, Portland, Armstrong (Evans), 4:30. Penalties: Brennan, McGoldrick, Repath, Maher, Armstrong.
Second period—2, Portland, Maher (McGoldrick), 8:55; 3, Portland, McGoldrick (Conn), 13:25; 4, Vancouver, Arnott, 30. Penalties: Roultson, Arnott, Repath.
Third period—3, Portland—Conn, McGoldrick (4), Coupes (Conn), 16:05. Penalties: McGoldrick, Brennan, Coupes, Jerwa (4), Brennan (ten minutes and 55), McGoldrick (ten minutes).

HOW TEAM TAKES ADVANTAGE OF ROUNDED ENDS OF A HOCKEY RINK TO FORM PLAYS

A PLAY FOR ROUNDED-CORNERED RINKS

Every hockey rink has its own little peculiarities which make it suitable for certain plays. One in particular is the rounded-cornered rink of the Detroit Olympia Arena. This arena is one of the few in the N.H.L. to have rounded corners, and as a result of this, the Detroit teams have evolved plays to suit the conditions. One of these is a play in which the left wing carries the puck up the ice and shoots it hard, along the boards. The puck bounces around one corner and caroms off the other and back up the ice on the right side, where the right-winger, who has stepped inside the opposing defence, is waiting for it. The defence, which has gone out to meet the rush of the left-winger, leaves the right-winger free for an unobstructed shot on the net from close in. Given any kind of break at all, this play is a goal-getter.

EIGHTY-FOUR ENTERED IN STEEPLCHASE

Classy Field of Thoroughbreds Nominated For Grand National in March

Gregalach and Shaun Gollin, Former Winners, Entered; World's Greatest Race

Liverpool, Eng., Jan. 9.—Eighty-four horses are entered in the Grand National Steeplechase to be run over the historic Aintree course, of four and a half miles, on Friday, March 27. It was revealed yesterday afternoon.

The entries include two former winners, Gregalach, 1928, and Shaun Gollin, 1930. In addition, all top-notchers of the steeplechase brigades of England and Ireland are in the list, along with a goodly proportion of horses that would have little chance in any other race than the greatest of them all, where big fields and gruelling hazards take a terrific toll.

Melroy's Bell and Sir Lindsay, who finished second and third to Shaun Gollin last year, are again entered. Other outstanding candidates are: Easler Hero, Bright's Boy, Bally Hanwood, Great Spand and Grakle.

The race was worth about \$47,000 last year, but in 1929, when a record field of sixty-eight started, the race was worth \$55,000. It has been run for ninety-one years.

The Grand National, though its conditions have been refrained with an eye on the effect of huge sweepstakes, remains the greatest race in the world.

THE ENTRIES
The entries are as follows: Coragh, Georgian Town, Cold Punch; Conohar, East Galway, Grakle, Cherry, Duck, Kilduck, Gillyvann, Tamasha; Best Hero, Overstump Prince; Easter Hero; Sir Lindsay, Aspirant, Apostasy; Shaun Gollin; Igague; Mallard; Quite Calm; Young Prince; Skrun Prince; Southmill; Gatebook; Ammandale; Drimmond; Exelose; Cryptical; Melroy's Bell; Clicker; Fear Nothing; Colliery Band; Althe; Glengarra; D.D. B.; Theras; Ballus; Bolanum; Gold-faire; Swift; Rowan; Sandyshook; Bright's Boy; Mount Etna; Ballast; Favorite; Harwood; Moss; Cherry; Big Black Boy; Rhythere; Royal Arch; Second; Bagle Second; Trump Card; Easy Virtue; Far Flight; Dintyree; Lady Victoria; Kyrddymann; Tynbell; Kakushin; Amberware; Heartburn; Richmond Second; Castletown; Renner; Gilevright; Guiding Light; Arun-tus; Bally Hanwood; Great Spand; Endwell; Aulnay and Prince of Ivaghm.

Mrs. K. C. Allen Is Medal Winner At Colwood Links

Still another golf laurel was won by Mrs. K. C. Allen yesterday when she captured the Colwood "A" class monthly medal round with a fine gross 92, which with her handicap of 10 deducted, gave her a net 82. Mrs. H. E. Brown took the prize in "B" class with 126, 38, 90.

Len Harvey Is 2 to 1 Favorite To Take First Fight In U.S.

Crack British Middleweight Will Tackle Vince Dundee in Twelve-round Bout at Madison Square Garden This Evening; Harvey Has Hung Up String of 350 Victories; With Mickey Walker Campaigning Among Heavyweights and Stripped of Title Harvey Considered to Have Fine Chance of Winning World Championship.

New York, N.Y., Jan. 9.—One of Great Britain's finest fighting machines, Len Harvey, makes his United States debut against Vince Dundee of Baltimore in a twelve-round bout in Madison Square Garden to-night.

Middleweight champion of his native land and with a string of some 350 victories behind him, Harvey ruled a 2 to 1 favorite over Dundee, although the Baltimore lad is no pushover by any means.

The betting support Harvey has received is a direct result of the impression he made on experts in training. Tall and strongly built, with the forearm and biceps of a heavy-weight and an aggressive fighting style, Harvey has been voted a first-class fighting man by observers, who have watched his gymnasium workouts. Dundee should discover what, if any, weaknesses the British warrior has.

THROWING IS VACANT

Harvey's United States invasion comes at a time when the middleweight throne is vacant. Not for many months has Mickey Walker defended his title. Instead, he has been campaigning among the heavyweights, and there is some question whether he any longer can make the class limit of 160 pounds. The one time "toy bulldog" has been stripped of the title not only by the National Boxing Association, but by the New York and Pennsylvania State Athletic Commission as well. With the title open, Harvey has a good chance to win it, as previous bouts have shown.

With the title open, Harvey has a good chance to win it, as previous bouts have shown.

Goodfellow Still Leading in N.H.L. Scoring Campaign

Leaders in the various departments of the National Hockey League are as follows:

CANADIAN SECTION
Team—Toronto, played 26, won 10, lost 6, tied 4, 24 points.
Most points (goals and assists)—Morrison, 15 goals, 5 assists, 20 points.
Most goals—Morrison, 15.
Most assists—Prinzie, 10.
Most shutouts—Toronto, 7.
Most penalties—Alex. Smith, Ottawa, 59 minutes.

AMERICAN SECTION
Team—Boston, played 21, won 14, lost 5, tied 2, 30 points.
Most points (goals and assists)—Goodfellow, Detroit, 15 goals, 10 assists, 25 points.
Most goals—Bill Cook, Rangers, 17.
Most assists—Boucher, Chicago, 12.
Most shutouts—Gardiner, Chicago, 7.
Most penalties—Rockburn, Detroit, 74 minutes.

The teams for to-morrow's matches follow:
Equilibrium—De Costa; Nicol and Joe Watt; Hosmer, Nurse and Mosher; Stewart, John Watt, Boyd, S. Stewart and Wagland. Reserves: Burnett and Stevens.
Jokers—Chalmers; McClimon and Leggett; Heal, Campbell and Storer; Carmichael, Bunyan, Watson, Bettelridge and McGee. Reserve, Smith.
Victoria City—Abbott, Margson and Clancy; Dobbin, Smith and Bowman; Barnwell, Campbell, Cameron, Munro and Luttrell. Reserves: McConnell, Southern and Pegin.
Sanich Thistles—Bridges, Mosier, Newman, Williams, Joe Crowe, Jim Crowe, Higgins, Price, Burns, King and Minnie.

JUVENILE FOOTBALL

At the Lake Hill Park the Sanich Thistles and Oak Bay United soccer teams of Division I, will play to-morrow at 2:30 o'clock.

The date of entries for the Provincial Cup series in Divisions I, II, III of juvenile football, close on January 15. An entry fee of \$1 per team and ten cents per registration form for each player not already registered is required.

Will Meet Jones Brothers; Canadiens and Cougars Meet in Intermediate League

Providing the team plays up to its usual standard, Pimley and Ritchies should climb into the top berth in the Victoria Senior Roller Hockey League to-night after they have met the tail-end Jones Brothers in their scheduled fixture at the Gray Line rink.

The Cyclamen have two victories to their credit, which give them a total of four points against the league leaders' five. Jones Brothers, on the other hand, have not yet entered the win column. Unless the latter spring an upset this evening, Pimleys will take the lead with six points.

Canadiens and Cougars will battle for third place in the intermediate division in the opening game at 7:30 o'clock.

Line-ups follow:
Canadiens—White, Pattullo, Ostler, Bloomfield, Barr, Parzer, Anderson, Robertson, Stringer and Leask.
Cougars—Wallace, Barnwell, Hines, Scouler, Okell, Price, Holmes, White and Stewardson.
Jones Bros.—Stevens, Cameron, Dickerson, McIlroy, Burnett, Hopkins, Jackson, Hemming and Charles.
Pimley & Ritchie—Banks, Taylor, Carlow, Bosson, R. Carlow, Pellet, Wallace, Davies and Brown.

Toront Maple Leaf Gain Lead In N.H.L. Canadian Division

Andy Blair Sinks Lone Goal To Turn Back Burly Maroons

Maple Leafs Take Advantage of "Break" in Third Period to Score 1 to 0 Victory Over Montreal Club; Worters Throws Puck Into His Own Net to Give Canadiens 2 to 1 Win Over Americans; Rangers Hand Detroit First Defeat on Home Ice, 1 to 0; Bill Cook Scores on Pass From Jerwa; Boston and Chicago Win.

Toronto, Ont., Jan. 9.—Ascension of Toronto Maple Leafs to the Canadian group leadership, Montreal Canadiens' lucky victory over New York Americans and the first home defeat of Detroit Falcons by New York Rangers were salient features in yesterday evening's full five game National Hockey League programme.

TULSA OILERS AND CHICAGO IN DEADLOCK

Again Tied For Leadership in American Hockey League; Minneapolis Beaten

Veteran "Duke" Keats Scores Two Goals as Oilers Beat Chicago 7 to 3

Canadian Press

Chicago, Jan. 9.—The way of the ambitious in the mid-west's "major outlaws" circuit keeps on being hard. Front-rank contenders today looked on the newest American Hockey League standing with mingled feelings, depending on whether it was Chicago's Shamrocks that looked, or Tulsa or Minneapolis or Duluth.

Just as they seemed to have struggled loose from the pursuing pack, the Shamrocks were pulled down from behind yesterday evening and made to share top berth with Tulsa. The Oilers in their bid for better things, hung a 7 to 3 defeat on the fiery rocks. Les LaFrance and the aged "Duke" Keats showed the way with a pair of goals each, and Marker, Trapp and Moffatt followed along behind with singletons.

Bobby Burns, McPayden and Headley pushed in the widely-separated Chicago goals.

Minneapolis Millers could have drawn to within stone-throwing distance of the leaders with a win yesterday evening. Instead, they tumbled before a swarm of hornets from Duluth, 4 to 2, and allowed the Lakesiders one-half of third position. Lewick and Merrill, Hornet forwards, were responsible to a great extent, figuring in three of the goals. Forslund got the other.

"Gloom" Lessard was the main Miller threat, scoring one goal and attending Redding on the other productive excursion.

Kansas City, with a 2 to 0 win over Buffalo, went into fifth place, two points in front of the Bulls.

Leading Competitors In Richest Golf Event

Some of the contestants in the second annual Aqua Caliente Open Golf Tournament for \$25,000 in prizes are pictured in the above layout. Gene Sarazen, 1930 winner, is shown sinking the final putt on the eighteenth green of the final round which netted him a 295 total and the championship.

perfect throw into his own net for the deciding tally. Mantha got credit for the shot. Although the score otherwise was even, the Flying Frenchmen had a bit the better of the play.

THIRDS PICK UP OWN NET

The teams then fought on even terms, with Canadiens carrying the brunt of the attacking burden, until the last minute of the second session. With most of the players waiting for the bell, G. Mantha flipped one from long range at Worters, who caught the flying disc. He lost his balance, however, and apparently became flustered, for in trying to toss the rubber aside, aimed it right into his own net.

The goal proved the winning one and it enabled the Flying Frenchmen to climb into a second place with their fellow-townsmen, the Maroons. Canadiens have two games in hand over their intra-city rivals.

Three goals in the opening period enabled Boston Bruins to defeat the Montreal Canadiens 3 to 1. The Bruins went to the front on a goal by Dit Clapper. Senators seemingly took the lead in the combination attack of the Bruins, and before the period ended, Clapper slapped in another goal and Cooney Weiland added one on a solo effort.

Alas, Cooney, who tended goal for the Senators in that disastrous frame, was replaced by Billy Beveridge, and then on the visitors were unable to tally. But, the ranking given the home forces at the stars turned to cheers as they outkicked and outplayed the starry Bruins. The shots from the Bruins show the trend of the play in the last forty minutes; they scored three goals, while Beveridge absorbed 18. Captain Frank Finnigan called the lone Ottawa counter on a backhand flip in the final frame.

SENIORS

First period—1. Americans, Burch (Byrdge), 11:53; 2. Canadiens, Lepine (S. Mantha), 7:24. Penalties: Masse-car, Burke, Byrdge.

Second period—3. Canadiens, G. Mantha, 19:13. Penalties: Ayres (2), Byrdge, Gahlon.

Third period—No score. Penalties: Dutton, Joliat (2), S. Mantha, Burke (2), Byrdge, Patterson.

Ottawa, Jan. 9.—A first period spurge of goals gave Boston Bruins a 3-1 victory over Ottawa Senators in a thoroughly fought National Hockey League game yesterday evening.

In the opening minutes of play, Bruins went to the front on a goal by Dit Clapper. Senators seemingly took the lead in the combination attack of the Bruins, and before the period ended, Clapper slapped in another goal and Cooney Weiland added one on a solo effort.

Alas, Cooney, who tended goal for the Senators in that disastrous frame, was replaced by Billy Beveridge, and then on the visitors were unable to tally. But, the ranking given the home forces at the stars turned to cheers as they outkicked and outplayed the starry Bruins. The shots from the Bruins show the trend of the play in the last forty minutes; they scored three goals, while Beveridge absorbed 18. Captain Frank Finnigan called the lone Ottawa counter on a backhand flip in the final frame.

SENIORS

First period—1. Boston, Clapper (Weiland), 4:35; 2. Boston, Weiland, 9:50; 3. Boston, Clapper (Weiland).

Second period—No score. Penalties: Shore, Pratt, Lamb, Art Smith.

Third period—4. Ottawa, Finnigan, 1:11. Penalties: Shore, Barry, Alex Smith, Bourgeois, Lamb.

Detroit, Jan. 9.—New York Rangers put an end to the Detroit hockey Falcons' record of eight undefeated home games here yesterday evening by a 1 to 0 victory over the Detroit team in a brilliant display of defensive hockey before 12,000 spectators.

The Falcons, fighting to oust the Rangers from third place in the National League standings, fell victims to the Ranger passing attack and were battered by the defensive show put on by the New Yorkers as early in the first period. After Cook's score, the fight in the final minutes to go and in the final period they sent only one attacking forward down the ice, while they checked every effort the Detroit team could offer.

SENIORS

First period—1. Rangers, W. Cook (Jerwa), 5:17. Penalties: Jerwa, Rockburn.

Second period—No score. Penalties: Rockburn, Jerwa, Aurie, Regan (2), Johnson.

Third period—No score. Penalties: None.

Philadelphia, Jan. 9.—Chicago Black Hawks administered the nineteen defeat of the season to the Philadelphia Quakers yesterday evening in a National Hockey League match at the Arena, the visitors winning 4 to 0. The victory strengthened the Black Hawks' hold on second place in the American group standings.

Allen Shields of the Quakers and Ingram of the Hawks engaged in a fist fight with four minutes to go and drew major penalties. Only four penalties were called, all in the final period.

SENIORS

First period—1. Chicago, Miller (March), 2:56. Penalties: None.

Second period—2. Chicago, Coatsick (Dutkowski), 17:19. Penalties: None.

Third period—3. Chicago, Ingram (Adams-Desjardins), 7:28; 4. Chicago, Cook, Lyons, Shields (major), Ingram (major).

San Francisco, Jan. 9.—The Oakland Checkers defeated the San Francisco Black Hawks, 2 to 1, in an overtime ice hockey game in the California League here yesterday evening.

SCOTS SEEK BAYS' BLOOD TO-MORROW

Militia Troop Strengthened For Crucial Match With J.B.A.A. at Oak Bay

Intermediate Oarsmen to Clash With Highlanders; College Faces Wanderers

Reinforced with several of their old players, who return to the ranks after long absence, the fighting Canadian Scottish, city senior rugby champions, will meet a J.B.A.A. team, strengthened by the addition of new blood from the intermediate division in the crucial battle of the first half of the senior loop at Oak Bay Park to-morrow. The Scots will strive for a victory in order to gain a deadlock with the oarsmen for the first half honors, while the Bays will work for a win or draw which will give them the honors of the initial round.

Boasting a back field stronger than they have fielded so far this season, the Scots will trot out eight men who have all seen service on rep squads. Jackie Bryden will play fullback, with Pete Turgoose and Jack Horne wing three and Sid Normington and Reg Weirham inside.

Campbell Forbes and Larry Henderson will be five eighths and Harry Robson halfback.

In the scrum, four of the men will be rep team members: Bruce Forbes, John Rowland, Cy Bernart and Bill Wharton will be the backbones of the pack, which will also include Pat Parr, Blyth and possibly Ted May.

BAYS STRONG

Seven of the rowing club's team will be former McKee Cup players while two, Jack Dunn and Jimmy Osmund, will be recruits from the intermediate fifteen which scored such a signal victory over Victoria College in the first game of the second half.

Art Regel will play fullback with Alan LeMarquand, Sailor Stag, Jack Edwards and Frank Skillingham being three-quarter berths. Cubby Godwin and Benny McMillan are counted on to play five eighths, while Henry Cockin will hold down the scrum half position.

Horace Good and George Warnock, hard-working rep squad forwards, will lead a fast heavy pack that should give the militiamen plenty to worry. Gerry Fanning, Dan Moses, Pettigrew, J. Osmund and Geoff D'Arcy will complete the scrum.

The Scottish are determined to hand their traditional rivals a defeat in tomorrow's fixtures, but the oarsmen are just as determined to win the first half. The teams should present a splendid exhibition when they clash at 3 o'clock.

Commander L. W. Murray will handle the whistle and the fixture will start at 3 o'clock.

INTERMEDIATE GAMES

In the preliminary encounter the second division team of the same club will clash at the same grounds an hour earlier, while Victoria College will meet the Wanderers at Victoria High School ground at 3 o'clock.

Following College's defeat at the hands of the rugged J.B.A.A. squad the students for another year, will emerge with a victory. Cyril Jones will referee the latter game and J. B. Acland the former.

The Wanderers will line up as follows: Stewart, Marshall, Brake, Acland, Pagan, Williams, Gann, McCone, Dan, Dickson, Campbell, Sharpe, Drum, Sturrock, De Blaquiere and McGregor.

The J.B.A.A. intermediates will line up as follows: Farrow, Rush, Patrick, Scott, Kenwick, Brown, Stephens, Murray, Lemm, Osmund, Dowell, George Tobin, Wray and Ford.

J. M'CARTHY IS SATISFIED WITH YANKEES

New Manager of New York Figures Club Will Be in Thick of Fight

Predicts Mad Scramble For American League Title This Season; Six Clubs Strong

New York, Jan. 9.—Switching from the National to the American League and from the differences in the hitting and pitching eccentricities of the stars of one major circuit to another is the least of the worries ahead of Joe McCarthy, late of the Chicago Cubs and now head man with the New York Yankees.

"Baseball is baseball in any league," says plump Joe, visiting his new domain for the first time since contracting to replace Bob Shawkey in the Yankee pilot seat. "You can't get away from the figures. Some hit 'em and some don't, and the figures never lie."

"When I came into the National League from Louisville five years ago, everyone told me what to do—never to pitch to 'Brye' Knickerbocker. The New York Giants, for instance. They didn't want to worry and tell me that. All I had to do was look at the averages. He sure could knock 'em out. So there was a nice spot waiting for him on first base every time he came up with men on the other sacks. That's baseball in any league."

McCarthy figures there will be six dangerous clubs in the American League next season with Washington and the World Champions Philadelphia Athletics heading the pack. The Yankees, Detroit, Cleveland and Chicago are also capable, he thinks, of turning the American League race into the kind of a scramble the National League usually stages.

WANTS ANOTHER PITCHER

Quitting over the squad that comprises the Yankees, a team he hasn't seen in action since the glamorous days and the four-game rout of the Pittsburgh Pirates in the world series of 1927, McCarthy doesn't see where he has had off at all. He would like another starting pitcher, "but so would every other club in the league," he says. Deals with the St. Louis Browns and Boston Red Sox for another pitcher have fallen through.

Joe is satisfied with his outfield, with Cooney in center field, Babe Ruth in right, and either Ducky, Babe Byrd or Walker, another youngster, in left. He wouldn't trade the respective members of his infield, however, Larry Chapman and Gehrig, reading from the left to the right side, for corresponding members of Connie Mack's Athletics. Dykes, Boley, Bishop and Dickey, will do. The chief problem pitchers are the ones that have been augmented only by minor league material.

One position, however, is filled as Babe Ruth's post in right field. Eddie Bennett, mascot for so long, that he voted for Al Smith in the last presidential election, has come to terms more and will be there every game straightening out the bats.

LOS ANGELES OPEN STARTS ON SATURDAY

One Hundred and Three Golfers Will Tee Off in \$10,000 Open Tournament.

Rain Caused Postponement of Play To-day; Aqua Caliente Event Set Back

Los Angeles, Jan. 9.—One hundred and thirty-three golfers kept a weather eye on the skies to-day, hoping for three days of sunshine, beginning to-morrow for the Los Angeles \$10,000 open tournament.

The sixth annual championship, scheduled to start to-day, was postponed yesterday until Saturday after a persistent two-day rain.

As a result, the Aqua Caliente \$25,000 open was also deferred from Tuesday of next week until Wednesday, to accommodate the players in the Los Angeles open. The present plans for the Los Angeles tournament will consist of eighteen holes to-morrow, eighteen on Sunday and the final thirty-six on Monday.

Weather permitting, the Wilshire Country Club course, scene of the Los Angeles open, will be repaired to-day. One fairway was completely submerged yesterday, a trap washed out and several bridges across the barrages swept away.

Youth Provides Feature Play In Miami Tournament

Miami, Fla., Jan. 9.—Win Day, fifteen-year-old Chicago shut-out, stole the show in the first match-play amateur golf tournament, with his one-up victory over Millard Chase, Buffalo, in nineteen holes.

The pair played evenly throughout the day at Miami Country Club course, coming through the eighteen holes yesterday. The Chicago youngster held a single three in the nineteenth hole, to top the match and advance to today's quarter-finals.

Jack B. Ryerson, Cooperstown, N.Y., and medalist in the tourney, found little trouble in laying Ken Berry, Miami, aside with a six and four match.

Jim West of Miami, defending his 1930 championship of the amateur classic, was pushed to win, one up at the eighteenth hole, from T. C. Woodward, Middleton, Ohio.

MARVIN HART IN BAD HEALTH

Former Heavyweight Boxing Champion May Have to Quit Duties as Referee

Louisville, Ky., Jan. 9.—Marvin Hart, Kentucky's only former heavyweight boxing champion, may have to forego his duties as third man in Kentucky rings because of ill-health.

Hart was the only boxer besides Jess Willard to win a bout from Jack Johnson. He won a twenty-round decision from the giant negro, which led to his title bout in 1905 with Jack Root.

Jim Jeffries, who had been retired champion for three years, agreed to award the championship belt to the winner of the Hart-Root bout in Reno, Nev., July 3, 1906. Jeffries himself refereed the bout, which Hart won by a knockout in the twelfth round.

Hart held the crown for only a few months. He lost it to Tommy Burns on February 23, 1906, by decision in twenty rounds.

The former champion has refereed all principal bouts here for many years.

COAST LEAGUE TALKS DRAFT

Heads of Minor Ball League Will Consider Ultimatum of Major Circuits

Los Angeles, Jan. 9.—Puzzling problems of the draft, league presidency and the 1931 baseball schedule confronted Pacific Coast League directors as they assembled here to-day.

Harry A. Williams, for seven years prey of the coast's class AA circuit, in two previous elections, has been the leading candidate, obtaining half of the league's votes. Five are essential to obtain the position with its yearly salary of \$10,000.

Cal Kiewit, former owner of the Oakland club, has stood next in line with three ballots, while Jack Sullivan, Seattle, received the other vote in both elections.

What fireworks may be lacking in the effort to break the deadlock over naming a president is expected to explode over the question of the ultimatum brought forward by the ultimatum from the majors, threatening to break off relations with circuits which refuse to comply with their demands.

Y.M.C.A. SOCCER LINE-UP

The following players will represent the Y.M.C.A. in a soccer game against the Equatorial Juniors at Central Park to-morrow: A. Martin, G. Thomas, C. McKenzie, S. Hill, C. Owen, A. Dickinson, J. Woodley, H. Bailey, C. Dixon, F. James and L. Gelling. Reserves will be G. Fraser and H. Bourne. The team will meet at the Y.M.C.A. at 1:45 o'clock.

January Clearance Sales

Look at the items advertised on this page and take note of the things you know you need now and will need in the near future. Then consider the tremendous saving to be made by purchasing now. Throughout all departments we are offering timely merchandise at the most astonishing price reductions in an effort to reduce stocks to the minimum before taking inventory. There are hundreds more bargains not advertised.

All Coats Must Go

Even women who don't really need a second Winter Coat will want to share in these extraordinary values. Never were high fashion successes of the present season so ruthlessly price-cut. In each of the following groups there's a pleasing array of styles to please every individual preference. Luxurious furs, fine fabrics and smart tailoring point to the peerless fashion value of these garments.

Victoria Daily Times

MEMBER ADVERTISING BUREAU CIRCULATION

TELEPHONES
5 a.m. to 8 p.m.—E4175
Advertising—E4176
E4176CLASSIFIED ADVERTISING RATES
15¢ per word per insertion.
Minimum charge, 25¢.
11.25 per line per month.
Minimum charge, \$2.50.Deaths, \$1.00 per insertion.
Marriages, \$1.00 per insertion.
Deaths, \$1.00 first insertion, and \$1.00 subsequent insertions.
Funeral notices, in Memorial Notices and Obituaries, \$1.50 per insertion.

In computing the number of words in an advertisement, estimate groups of three or less figures as one word. Dollar marks and all abbreviations count as one word.

In estimating the number of lines in an advertisement, count five words for each line. If the number of words is less than five, count the number of lines, which depends on the length of the individual words.

The Times will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one issue. Any claim for rebate on account of errors or omissions must be made within thirty days from the date of the same, otherwise the claim will not be allowed.

Advertisers who desire it may have replies addressed to a box at The Times office and forwarded to their private address. A charge of 10¢ is made for this service.

Subscribers wishing their addresses changed should notify this office, as well as the carrier. If your Times is delivered by carrier, please send a copy of your address change to the carrier.

THE CORPORATION OF THE DISTRICT OF SAANICH

Ward Meetings—1931

Ward 1—Jan. 13, at St. Luke's Hall.
Ward 2—Jan. 15, at St. Mark's Hall.
Ward 3—Jan. 13, at Gordon Head
Hall.

Ward 4—Jan. 14, at Marigold Hall.
Ward 5—Jan. 12, at Royal Oak Hall.
Ward 6—Jan. 12, at Temperance Hall.
Ward 7—Jan. 12, at Tulliam School.
Jan. 16, at Lake Hill Community
Centre.

All meetings to commence at 8 p.m.
R. F. SEWELL,
C.M.C.

NOTICE

A public meeting, under the auspices of the Saanich School Board, will be held in the Royal Oak School, on Friday, January 9, at 8 p.m., for the purpose of meeting the representatives of the district to discuss and explain the plans of the Board for the building of a High School in Saanich.

Goodyear Builds Argentine Plant For Large Output

The wheels of another large industrial plant, added to the list of factories in Argentina, will start humming early in February, when the Goodyear tire and tube plant at Hurlingham, near Buenos Aires, is formally opened, and, signalling the importance of this event, C. Slusser, vice-president and factory manager of the Goodyear Tire and Rubber Company, and A. G. Cameron, vice-president of the Goodyear Tire and Rubber Company, will leave Akron, Ohio, about the first week in January for Buenos Aires to participate in the inaugural ceremonies.

The Argentina company was organized following a visit made to the South American republic in the fall of 1929 by F. W. Litchfield, president of Goodyear.

Construction of the Argentina plant was started last July. The capacity will be 1,000 tires and 1,000 tubes daily, and about 400 people will be employed. Actual production is scheduled to begin immediately following the dedication. Elaborate ceremonies have been planned for the opening day and many prominent public officials and Goodyear dealers throughout Argentina are expected to attend.

Roscoe White, who has been Goodyear's managing director in Argentina since 1916, will continue to direct and supervise the sales of the new factory. Fred W. Climer, for many years manager of the factory personnel department of Goodyear at Akron, will be superintendent.

The new factory is one-story building, 350 by 450 feet. In addition there is a boiler room forty by eighty-nine feet, an engineering building sixty by sixty-six feet, and a switchboard room sixteen by fifty-six feet.

The Argentina factory is the fifth plant established by Goodyear, outside the United States, two others being in Canada and one each in England and Australia, and is the ninth plant in total number, as four other Goodyear tire and tube factories are in the United States. In addition, Goodyear operates its own tire fabric mills in seven points in North America, has cotton plantations in Arizona and rubber plantations in Sumatra and the Philippines.

TURNER VALLEY WELLS SET NEW OUTPUT RECORD

Calgary, Jan. 9.—The closing month of 1930 was the record production month in history of the Turner Valley oilfield, according to the Imperial and Royal Refinery reports issued Thursday morning. Total deliveries were 160,725 barrels, compared with the November total of 157,787 barrels.

One of the features of the report was the return to production of Royalty No. 4, which commenced production in 1924.

Megarry's No. 1 well gave a remarkable yield. Total deliveries for 1930 from Turner Valley were 1,512,695 barrels, compared with 951,645 barrels in 1929.

N.Y. Central Lines Freight Decreases

New York, Jan. 9.—New York Central lines in week ended January 3 loaded 42,337 cars of revenue freight, against 43,627 for like week 1930 and 85,208 in like 1929 week. In the week ended December 27 last loadings were 37,170 cars.

Ford of Belgium Declares Dividend

Brussels, Jan. 9.—Ford Motor Company of Belgium has declared a dividend for the twelve months of 1930 of 75 francs, less tax, compared with 58 francs in 1929 for fourteen months.

BROKERS' LOANS

Washington, Jan. 9.—Loans to brokers and dealers held by New York Federal Reserve member banks for the week ending January 7 were announced by the Federal Reserve Board today as \$1,870,000,000, representing a decrease of \$47,000,000, as compared with the preceding week.

Uncle Ray's Corner

Famous Island Puzzles

The fifth puzzle takes us to one of the most famous islands in the world, though it is not extremely large.

UNCLE RAY
other has a large pig and many little pigs. The horse, the dog, the salmon and the rabbit are pictured on other coins.

A contest was held for the best designs before the coins were made. The winner was a man who lived in a country which has often carried on warfare with people on the island.

If you need more hints to guess the name of the island, I may add that it is known as a home of wit and humor, and that its people are kind-hearted, though they sometimes display quick and fiery temper. The climate is mild, but there is heavy rainfall. The rain causes plants and trees to grow quickly, and because there is so much green we often call it the "Emerald Isle." The shamrock (a form of clover), and the harp are used as symbols by people living in the central and southern parts.

Your solvers will have plenty of ex-

ercise when you cut around the pieces of the island. This points to the fact that there are many inlets and bays around the coast. There are eight pieces to the puzzle. Be sure not to lose one before you get them put together.

To-morrow—A Little Saturday Talk

Organize a branch of Uncle Ray's Scrapbook Club in your neighborhood. For illustrated directions leaflet and 1931 membership certificate send in stamped, self-addressed envelope to Uncle Ray.

WITH MOST SHAREHOLDERS, A.T.T. SHOWS BIG PROFITS ON STOCK IN LAST 10 YEARS

The American Telephone & Telegraph Company, which operates the largest telephone system in the world, is expected to earn in excess of \$10.50 per share in 1930, according to S. W. Straus & Company, sponsors of Super-Corporations of America Trust Shares.

Not only does the American Telephone & Telegraph Company rank stockholders consistently among the largest group of investors in any one company in the world. This tremendous popularity has been indicated frequently in the past through contests held for the purpose of demonstrating the best American stockholder's choice.

Rapid communication is a necessary element in the conduct of business during prosperity and the latter has been growing rapidly and is now in excess of \$400,000,000 per annum.

Among the larger subsidiaries are Western Electric Company Incorporated, which is almost wholly owned by American Telephone. The latter is one of the leading manufacturers of telephonic equipment of the nation.

American Telephone and Telegraph has always almost invariably ranked first. Rapid communication is a necessary element in the conduct of business during prosperity and the latter has been growing rapidly and is now in excess of \$400,000,000 per annum.

Expansion of the company's operations into new fields has been almost an annual occurrence and in 1930 the American Telephone purchased the Tietz Corporation for the Western Electric Company. It also announced plans to commence construction of a 2,100 mile international telephone service westward from San Francisco to Honolulu, which will eventually reach into other Pacific Islands and Asiatic countries.

Future possibilities of this com-

Financial Advertising Greater This Year

Financial advertising appropriations will be considerably larger in 1931 than in 1930, according to Preston R. Reed, executive secretary of the Financial Advertisers' Association.

Mr. Reed has just completed checking the results of a questionnaire sent to 850 members of the association. The questionnaire indicates that 38 per cent of those replying to the questionnaire will have an increased budget in 1931. While only 12 per cent will have a budget reduced, the remaining 50 per cent will have the same appropriation as last year.

The greatest increase reported is 100 per cent, while the largest cut is 66 per cent. The increase was on a budget totaling \$75,000, while the decrease was on a very small budget totaling \$15,000.

The largest budget reported on in the questionnaire totaled \$630,000. It is indicated that the total amount to be spent by the members of the association in the coming years will be in excess of \$50,000,000.

DAILY HEALTH SERVICE ACCIDENTS IN INDUSTRY

Greater Protection Needed for Young Workers; Study Shows Fewer Women Are Hurt Than Men.

By DR. MORRIS FISHBURN

It is estimated that there are from 15,000 to 25,000 fatal accidents in industry in the United States every year. There are, moreover, more than 100,000 accidents that cause permanent disability, and at least 1,500,000 cause disability of one day or more.

These facts have caused a great amount of study to be devoted to methods of prevention and to attempts to find out the causes of accidents. Only when the cause is known is it possible scientifically to plan for prevention.

One of the first steps has been an attempt to find out whether men or women are more likely to suffer accidents and whether or not the number of women in industry has in any way increased the likelihood of danger. As might have been expected, in view of the number of women employed in industry and the nature of the occupations in which they are employed, accidents to women were actually and relatively fewer than those to men.

A much greater proportion of women injured than of men were under twenty-one years of age. More than half of injuries to women occurred in manufacturing. There were also considerable numbers among workers in hotels and restaurants and among women who served as scrub women or janitresses in buildings.

In factories in which women were not frequently injured, the substances manufactured were food,

INSURANCE MEN Authors Deplore Passing Of Mrs. L. Adams - Beck

The January meeting of the Victoria and Islands Branch, Canadian Authors' Association, held yesterday evening in the Victoria Hotel, was of unusual interest, including in its programme an address by B. C. Nicholas on "The Origin and Development of the News-stand," and a paper by Mrs. L. Adams Beck, former Victorian and on the subject of the "News-stand." The subject of the evening was the passing of Mrs. L. Adams Beck, a well-known author and journalist.

High tribute was paid to the work of George Dyson, energetic treasurer of the Victoria and Islands Life Underwriters' Association, at the annual luncheon in Spencer's private dining room yesterday when members acknowledged his part in the development of the organization.

During the meeting W. E. McIntyre was elected president of the association, with R. A. Semple, vice-president, and Charles Heisterman, secretary. Mr. Dyson was returned to his office, W. Speed and A. Marshall were elected to the executive.

A brief report on the year's activities was given by W. E. McIntyre, president, before he turned the reins of the club's government over to Mr. McIntyre.

Centre Works Block To Aid Scorer

BY SOL MEITZER
It's odd how the pendulum swings in sport. Chicago's basketball team, these past few years, like its football brethren, has been the champion in both cases to good mid-western colleges and universities. That makes it hard for Coach Norgren on the basketball team, who has better prospects this year than last, so his attack is well worth studying.

It's simple in the main. For instance this quick break play starts when left guard, No. 4, has the ball and starts dribbling to the right, as the right guard, No. 5, rushes across to his left and in front of No. 4. Soon as No. 4's foot is on the line and he has the ball, the right guard, No. 5, is in position to take the ball and pass it to the right guard, No. 6, who is in position to take the ball and pass it to the right guard, No. 7, who is in position to take the ball and pass it to the right guard, No. 8, who is in position to take the ball and pass it to the right guard, No. 9, who is in position to take the ball and pass it to the right guard, No. 10, who is in position to take the ball and pass it to the right guard, No. 11, who is in position to take the ball and pass it to the right guard, No. 12, who is in position to take the ball and pass it to the right guard, No. 13, who is in position to take the ball and pass it to the right guard, No. 14, who is in position to take the ball and pass it to the right guard, No. 15, who is in position to take the ball and pass it to the right guard, No. 16, who is in position to take the ball and pass it to the right guard, No. 17, who is in position to take the ball and pass it to the right guard, No. 18, who is in position to take the ball and pass it to the right guard, No. 19, who is in position to take the ball and pass it to the right guard, No. 20, who is in position to take the ball and pass it to the right guard, No. 21, who is in position to take the ball and pass it to the right guard, No. 22, who is in position to take the ball and pass it to the right guard, No. 23, who is in position to take the ball and pass it to the right guard, No. 24, who is in position to take the ball and pass it to the right guard, No. 25, who is in position to take the ball and pass it to the right guard, No. 26, who is in position to take the ball and pass it to the right guard, No. 27, who is in position to take the ball and pass it to the right guard, No. 28, who is in position to take the ball and pass it to the right guard, No. 29, who is in position to take the ball and pass it to the right guard, No. 30, who is in position to take the ball and pass it to the right guard, No. 31, who is in position to take the ball and pass it to the right guard, No. 32, who is in position to take the ball and pass it to the right guard, No. 33, who is in position to take the ball and pass it to the right guard, No. 34, who is in position to take the ball and pass it to the right guard, No. 35, who is in position to take the ball and pass it to the right guard, No. 36, who is in position to take the ball and pass it to the right guard, No. 37, who is in position to take the ball and pass it to the right guard, No. 38, who is in position to take the ball and pass it to the right guard, No. 39, who is in position to take the ball and pass it to the right guard, No. 40, who is in position to take the ball and pass it to the right guard, No. 41, who is in position to take the ball and pass it to the right guard, No. 42, who is in position to take the ball and pass it to the right guard, No. 43, who is in position to take the ball and pass it to the right guard, No. 44, who is in position to take the ball and pass it to the right guard, No. 45, who is in position to take the ball and pass it to the right guard, No. 46, who is in position to take the ball and pass it to the right guard, No. 47, who is in position to take the ball and pass it to the right guard, No. 48, who is in position to take the ball and pass it to the right guard, No. 49, who is in position to take the ball and pass it to the right guard, No. 50, who is in position to take the ball and pass it to the right guard, No. 51, who is in position U.S. TREASURY MAY SOON FLOAT LONG TERM ISSUE

New York, Jan. 9.—Reports circulated in Washington and New York indicate the treasury will float a long-term bond issue in March but final decision is not expected to be made for some time.

Must Pay Price For Success, Says Wall St. Leader

Giving the youth of the Pacific Coast a challenge to take the road of service for the betterment of mankind, Cameron Beck, personal director of the New York Stock Exchange, inaugurated the second term of the Pacific Coast School of the Air over a network of N.E.C. stations Monday afternoon, January 8, with a talk on "The Road of Leadership."

Beck, who opened the first term of the radio school a year ago, came to the Pacific Coast again for this purpose and to accept the invitation of the California State Department of Education to visit a number of the cities in the state and speak in person to the high school students.

Beck, through whose office last year more than 50,000 people came to ask about jobs, suggested four fundamental things which he deems necessary if young people are to make worthwhile investments of their lives—a definite plan for their lives, purpose, perseverance and a passion for right living.

"Your success in life does not depend so much upon your parents," Beck told listening pupils. "In the last analysis your success in life depends very largely upon yourself. Today, right where you are, you decide whether you are willing to pay the price for success costs."

The really great men of the world are the men who had the habit of doing the right thing at the right time, not in extraordinary situations, but in every day conduct.

His talk, preceded by an introduction by Paul M. Pitman, director of the Pacific Coast School of the Air, was the first to be heard in the Monday course on "Guidance."

Beck was heard through N.E.C. stations KGO San Francisco and Oakland, KHQ Spokane, KOMO Seattle, KGW Portland, KFO San Francisco, KSCA Los Angeles, KFSD San Diego and KTAR Phoenix.

GOODYEAR TO PAY REGULAR DIVIDEND

New York, Jan. 9.—Goodyear Rubber to-day declared the regular dividend of \$1.25, payable February 1, to stock of record January 17.

After the directors' meeting the statement was made that because of the needs of substantial shareholders, a dividend adjustment, the common dividend was not earned. Directors declared the regular preferred and common dividend at this time.

NOTICE

TAKE NOTICE that the Annual General Meeting of the Shareholders of Capital Oil and Natural Gas Company Limited (N.P.L.) will be held at the Board of Trade Rooms, 300 Pender Street West, in the City of Vancouver, in the Province of British Columbia, on Friday, the 30th day of January A.D. 1931, at the hour of 2:30 o'clock in the afternoon.

WHITNEY LETTER

(By Logan & Bryan)

New York, Jan. 8.—Whitney of the Wall Street Financial Bureau says:

ADDITIONAL ADVANCE

"The outlook for to-day does not call for any great expression of opinion further than to say—up again for the day—and I believe that the additional advance is capable of carrying over into the first few hours of next week before it winds up the market's current phase."

"The entire advance, which started a day or two before the end of 1930, simply represents the working out of the rally which on the first session of this year you were told could easily rally eight or ten days into the New Year and, in doing so, carry the Dow Jones Industrial average into a range of about 175-180. Last night's closing represents an approach to within approximately two points of the lower limit of this range, so that what strength is expected to-day and tomorrow should easily succeed in placing the market well inside of the figures which have been held out as the rally possibilities."

"With this additional strength I think we will have completed about all the worthwhile advance we will see for some little period ahead and then following the next day or two, the market will of necessity have to devote some time to consolidating the position which is brought about by virtue of being practically 'nest four' away from the low of the mid-December."

"Whether the range of prices registered takes the true 'sideways' form, or that of sagging prices, depends to a great extent on the degree of unpleasantness or surprise found in the fourth quarter and completed year earnings which the market will have to absorb during the next four to six weeks. While I have no reason to alter the previously expressed opinion that the 'average' performance during this period of fluctuation will be to maintain prices above the low of last month, at the same time I certainly do not expect anything during this period to create any prices that will represent any material betterment of those high points which we have more or less immediately ahead of us. This simply means that the strength of the next day or two is the place to clinch some profits on any of those commitments which have been made in the last week to ten days from a trading aspect."

COMMENT

"While rather late in the advance to go into any extensive new commitments, the market has nevertheless, I feel that where they have been previously bought lower down than they should be held for the specific prices pointed out last Wednesday. On the other hand, I think you can disregard local market possibilities for a top and continue to buy the food products stocks on every temporary weakness, favored ones being Corn Products, Hersey, National Biscuit, Pennick and Ford."

Named Distributors Of 20th Century Trust

New York, Jan. 9.—The Guardian Trust Company of Denver, Colorado, have associated themselves with Twentieth Century Trust and have appointed wholesale distributors for Colorado, New Mexico, Wyoming and Western Nebraska, according to Robert, Roach and Co., Inc., of New York, sponsors for the trust.

The shares of the trust are 1-1000 participating interest in a unit consisting of two shares each of twenty-nine common stocks and a reserve fund amounting to sixty cents a share. The trust has a unique feature in that each of the twenty-nine underlying stocks of the trust individually is rated "A" or "AA" and that any number of shares of the trust may be converted without penalty to the shareholder. The underlying stocks of the trust are made up of eight railroads, thirteen industrials, four oils and four utilities.

OTTAWA DENIES GOLD EMBARGO

Canadian Press
Montreal, Jan. 9.—Suggestion that Canada had placed an informal embargo upon the export of gold because of differences in exchange, met with emphatic denial in authoritative circles here to-day. Denial was also forthcoming from Department of Finance officials.

Owing largely to contemplated financing by Canadians in New York, funds dropped back this morning to 11-64 of 1 per cent premium.

Imperial Tobacco And Tuckett's Name New Sales Heads

Imperial Tobacco Company of Canada Ltd. and the Tuckett Tobacco Company Ltd. have simultaneously made announcements of changes in their organizations.

Earle Spafford, vice-president and director, in charge of sales of the Tuckett Tobacco Company Limited has been elected director and sales manager of Imperial Tobacco Company of Canada Limited, with headquarters in Montreal, and T. H. McQuire, who for some time has been sales manager of Imperial Tobacco Company of Canada Limited, has been elected vice-president and director, in charge of sales of the Tuckett Tobacco Company Limited, with headquarters in Hamilton.

Both of these men have had many years experience in their former positions and are well-known to the trade throughout the Dominion. It is realized by both companies that the long experience that Mr. Spafford and Mr. McQuire have had in their former positions will be of valuable assistance to them in the duties they are now taking over.

Earle Spafford was born at Lennoxville, Quebec, and educated at Bishop's College and McGill University.

Upon his return from overseas in April 1919 he accepted the position of vice-president and manager of the Tobacco Products Corporation of Canada, with head office at Montreal. In 1921 he was elected president of that company.

In 1923, following the amalgamation of the Tobacco Products Corporation of Canada with the Tuckett Tobacco Company Limited, Spafford moved to Hamilton as vice-president and director of sales of the Tuckett Tobacco Company Limited and was also elected a director of that company.

Thomas Harold McQuire is a native son of St. John, N.B., his father having been a prominent business man of that city.

Mr. McQuire entered the service of Imperial Tobacco Company of Canada Limited in its St. John, N.B., office in 1912, and made rapid progress, serving as manager of the New Brunswick division from 1916 to 1918. Since then Mr. McQuire has risen step by step, being successively district manager for Alberta and district manager in charge of the three prairie provinces, following this by being appointed assistant sales manager at the head office in Montreal and succeeding to the position of sales manager in April 1930.

Both of these appointments became effective January 1, 1931.

Railway Earnings Reflect Trade Drop, Says Beatty

Montreal, Jan. 9.—Railway earnings, which have shown a drop of some 16 per cent during the past year, can reasonably be taken as indicating the total decline in Canada activity during the same period, states E. W. Beatty, president of the Canadian Pacific, in his annual review of the economic position of the Dominion.

Mr. Beatty believes the wheat situation has been responsible for at least half of the decline and that with the marketing of a few more bushels of wheat in the country, there would remain only a few and unimportant barriers to better conditions.

"The pessimism seen everywhere for the future from the way in which industries hitherto of comparative unimportance in Canada are assuming a leadership in the economic scheme of things. He recalls that fifty years ago the total mineral production in Canada was valued at about \$10,000,000, whereas in 1929 it was more than \$310,000,000."

COCKSHUTT PLOW PROFITS DECREASE

Montreal, Jan. 9.—Earnings on the common stock of Cockshutt Plow Company amounted to \$1.09 per share after all charges, including depreciation and taxes, for the year ended November 30, 1930.

The annual report shows the company has working capital at \$2,256,100 compared with \$2,433,970 last year. Operating profits showed a large decrease from the previous year, \$327,799 compared with \$875,859. Payment of dividend and other charges left a deficit of \$115,635, compared with a surplus of the previous year of \$624,980. The balance carried forward amounted to \$730,243, after deduction of a reserve for bad and doubtful debts of \$150,000. The balance last year was \$1,004,868.

MALAY MINERS TO CUT OUTPUT

Singapore, Straits Settlement, Jan. 9.—Leading Chinese mining interests in the Selangor fields to-day adopted unanimously a resolution favoring restriction of mine output, in line with a general proposal to cut production in the Malay States to seventy-eight per cent of the 1928 total.

At a meeting of Perak tin miners yesterday the senior warden of mines, who notified miners a week ago the government was prepared to make effective a proposal for a quota scheme involving restriction, asserted the government was pressing for export control also. He emphasized the government of the Federated States was not prepared to consider financing of tin holdings.

RICHFIELD NAMES NEW DIRECTORS

San Francisco, Jan. 9.—William C. McDuffie, president of the Pacific Western Oil Corporation, has been elected president of the Richfield Oil Company of California, succeeding C. M. Fuller, who has been president of Richfield for the past several years.

Six new directors were also named on the board to succeed resigning members. They are Harry J. Bauer, P. H. O'Neil, H. H. Cotton, John Treanor, Joseph F. Lobb and McDuffie. T. A. Talbot remains as chairman of the board. In a statement announcing the change in personnel, the company stated that the reorganization of the Richfield management carries with it an extension of the outstanding bank loans and that it is contemplated these obligations be funded.

Slip-on and Side-hook Style Garter Belts of fancy cotton, with four-hose supporters. Boneless. Each **\$1.00**

—Corsets, First Floor

Dorothy Dix

A Woman's Clothes Are Her Instinctive Effort at Self-expression—From a Woman's Hat You Can Figure Out What She Is and What She Will Be, and What Kind of Wife She Will Make

THERE is nothing that men are so fond of satirizing as the way women dress. They never weary of glibly at feminine apparel and making wise-cracks about skirts going up or down, and the unstable waistline which sometimes under the arms and sometimes around the knees, but seldom where Nature intended it to be.

To them women's clothes are just another vagary of an irrational and inexplicable sex, and an additional proof that the feminine brain is cut on the bias and frilled in the middle and tucked around the edges.

Apparently it never occurs to men to attempt to interpret women in terms of dress; yet a woman's clothes are her instinctive effort at self-expression. Her politics she gets from her father. Her religion from her mother. Her point of view from her teachers and her clubs and the movies and what she reads, but her clothes are her own. They represent her individual taste and aspirations and sophistication and judgment.

They give you a line on her as nothing else could. Indeed, it is not too much to say that from a woman's hat you can construct her whole personality as Cuvier was able to reconstruct a whole animal from a single bone. That is why when strange women meet they always cast a lightning glance at the way the other is dressed.

So when Mrs. A. says to Mrs. B. apropos of Mrs. C. who has just moved into their neighborhood: "I don't think we need call. I met her in the butcher shop at 9 o'clock in the morning in a beaded georgette frock." Or when Mrs. D. asks Mrs. E.: "Have you met that perfectly lovely Mrs. F.? She wears the simplest and the smartest things you ever saw and I think we had better ask her to join our bridge club," it isn't so foolish as it sounds.

It merely means that they have weighed the two strange women in the balance against their clothes and have decided that the inappropriately-dressed woman was crude and ignorant and without social experience, whereas the woman who knew exactly how to dress had poise and tact and intelligence, and was a woman of the world, and would be pleasant to know socially. And nine times out of ten this verdict is absolutely just.

Certainly any young man who is contemplating matrimony does well to note and ponder well the way the girl he fancies dresses, for in no other way can he get such a tip about the sort of wife she will make. It will tell him a thousand things about her character and disposition, about her habits, about her inclinations and ideals that he will need to know, and that may save him from paying alimony later on.

When a poor girl, for instance, dresses far in excess of her means and goes about looking like the Queen of Sheba, even a blind man should be able to see that she is selfish and greedy and extravagant and one of the clothes-mad women who are willing to buy a Paris frock with the heart's blood of her father or husband. It shouldn't take any prophet to tell a poor man that the over-dressed poor girl is a luxury that only a millionaire can afford, and that if he marries her he will spend the balance of his life slaving to pay her bills.

On the other hand the poor girl who is always just a step or two behind the latest fashions, who knows just what the girl he fancies dresses, and who doesn't mind admitting that what she is a bargain hunter and clever with her needle, is a splendid matrimonial bet. She will make the kind of wife who will know when to spend and when to save, and how to make one dollar do the work of five. She will make the sort of wife of whom a man will never be ashamed, and she will help him to rise in the world because she knows how to make the best out of a little.

The girl who is always inappropriately dressed, who comes to work looking as if she was diked out for an afternoon party, lacks judgment and a sense of fitness. She will make the kind of wife who fritters money away on foolishness, and who never has anything to show for what she spends. She belongs to the type of wives who can never resist anything that is marked down from \$2 to \$1.98, whether they want it or have any need for it or not, and who buy party dresses when they haven't a decent street dress to their names.

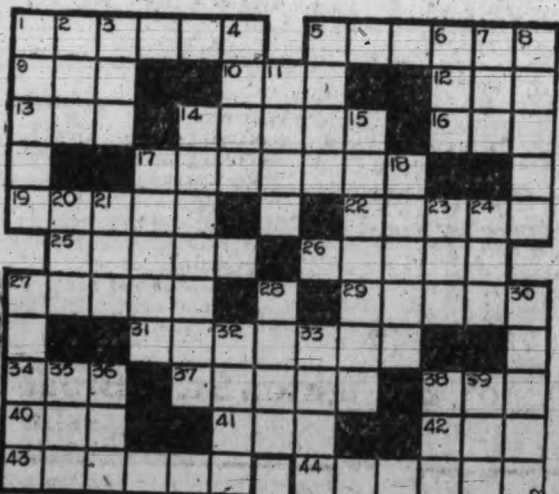

The girl who never looks quite tidy, whose hair always seems to need a shampoo and whose hands are manicured and whose dress would be better for being cleaned and pressed, is lazy and sloppy. She will make a slovenly housekeeper, who never sweeps under the bed, or scrubs the bathroom, and who opens up a few cans for dinner when she hears her husband's key in the lock. A girl who hasn't enough energy to sew on her own buttons and darn her own stockings will certainly let her husband and her children hold themselves together with safety pins.

Taking it by and large, you will find that almost invariably the fluff-ruffies girl is frivolous and shallow; the severe-looking girl who always wears tailor-made things that are as mannish as she can get them is severe in her ideas and lacking in charm and adaptability; the girl who wears colors that swear at each other has no tact or intuition and will always be a bull in a china shop, and the girl who looks as if her worst enemy had bought her hats for her is so vain she thinks she is beautiful in anything, while the girl who wears whatever is the fashion regardless of her figure or color, is nothing but a sheep.

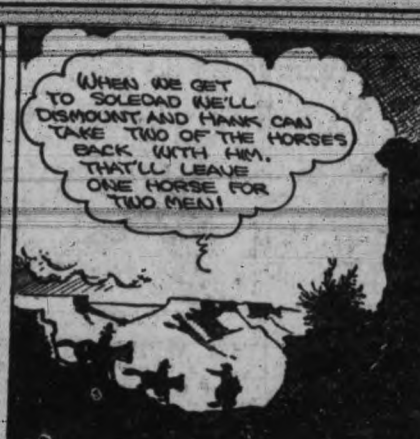

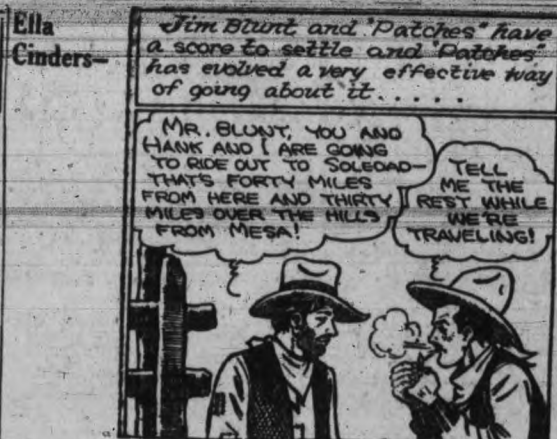

So, boys, in picking out your wives watch your sweetie's clothes. There is a lot in 'em.

BEHAVIORISM

DESCRIBED IN FINE ADDRESS

Prof. W. G. Black Tells of the
Behaviorists' Contributions
to Education

Urges More Tolerant Attitude
Toward Psychological
Sciences

"The contribution of the Behaviorists to School, Theory and Practice," was the subject of Professor W. G. Black's lecture before the University Extension Society at Victoria College yesterday evening. G. A. A. Hebbden, the president, presided.

Before getting to the actual subject of his lecture Professor Black entered a counter-attack on those leaders of thought and of religion who had never regarded the behaviorists with anything but a spirit of enmity. The behaviorists, however, had made many suggestions with regard to education, and schoolmen, the speaker added, could not afford to ignore them. These suggestions, he said, were of a practical nature, and they must be tested. The behaviorists, he said, were not interested in the abstract, but in the concrete. They were interested in the behavior of the individual, and in the behavior of the group. They were interested in the behavior of the individual, and in the behavior of the group. They were interested in the behavior of the individual, and in the behavior of the group.

In defining the meaning of behaviorism, Professor Black contrasted it with structuralism. While structuralism laid emphasis on man's introspection and his qualitative nature—that is, his belief that he had both a body and a soul—behaviorism asserted that man was a single organism, that "consciousness" was inexplicable, that the doctrine of introspection was invalid, that the only method by which facts might be obtained was by an observation of the behavior of others, and that psychology was really a study of the behavior of John B. Watson, celebrated American exponent of behaviorism, were not held, the speaker added, by the milder supporters of his creed. Professor Black recommended to his audience Watson's three outstanding books: "Psychology from the Standpoint of Behaviorism," "Psychologies of 1922," and "Psychologies of 1925"—all of which caused revulsion when published. His last book, "Psychological Care of Infant and Child," which set forth one of the two main assertions of the behaviorist—that the modern mother tended to coddle, pet and spoil her child far too much—brought down upon the author the indignation of the whole army of mothers. This abuse, however, was nothing new to Watson. The other main assertion of the behaviorist was that judgments on human nature should be made by observation of others rather than by the introspective teaching of ourselves. Before turning to the actual contribution of behaviorism to education, Professor Black pointed out that the movement had started in America and since 1919 had gained supporters in increasingly large numbers.

BEHAVIORISM AND EDUCATION

The first contribution of the behaviorists to education, the speaker said, was his advice to teachers to work objectively rather than subjectively, to leave their armchairs and go out to observe human nature before drawing up curricula. The second was his holding that children have no large repertoire of instincts at birth like animals, but that they have an easily moulded nervous system which is reacted upon soon after birth and which is subject to many disturbing influences. Watson, the speaker pointed out, differed from the behaviorists in that he was one of the first to approach the matter of instinct and emotion in the child from the experimental side. He frequented maternity hospitals and orphanages. He found by practical observation that loud sound or loss of support acted as stimuli to produce emotions in the child, but that darkness or the fluttering of a bird did not so react. He found that the desire of manipulating objects and of observing things was very strong in the infant; that very few things caused the baby anger, but that the gripping of the thumb was discovered, however, that after five or six years the reactions of anger and fear were easily produced and that this was often the fault of the mother. In this way the behaviorists had thrown light on the nature of emotion.

A third contribution was to be seen in the behaviorists' experiments with respect to trial and error and ultimate success. A horse trying to get out of a field for the first time tested all parts of the fence with his body before finding the gate. The human used his thinking faculties to direct him by the shortest path to the gate. The behaviorists dealt with the problem of personality and the influence of habits on personality. They had met the problem of human responsibility. They had shown that the human was really the result of heredity and environmental influences which had acted upon him throughout his life. This, the speaker added, was recognized by the noted criminal lawyer, Clarence Darrow, when he entered a plea for the lives of Leopold and Loeb in the famous Chicago case of a few years ago. Darrow blamed the youths' atrocity to the parents and to the street influences as much as to the boys themselves. Behaviorism had pointed out a wider meaning of the word "responsibility."

THE WAR HABIT

At the conclusion of Professor Black's address, many interesting questions were asked the speaker. In reply to a demand whether he thought the war habit could be removed from the coming generation, Professor Black said that his observations of the fight instinct in the boys under him led him to believe such a millennium was very far off. It was a matter, he added, of repression or sublimation. He did not think that repression was ever an good, but considered that the sublimation process—the removal of the means and incentive to war—was the only possible way.

NEW GOVERNOR-GENERAL

London, Jan. 9.—The Earl and Countess of Clarendon departed for South Africa to-day. The Earl of Clarendon will succeed the Earl of Athlone as Governor-General of the Dominion.

FILM PRODUCER AND HEIRESS WED.

Here is the culmination of the romance begun when Elizabeth C. Moore, daughter of the late Hugo Stinnes, wealthy German industrialist, and Carl Soderstrom made a tour around the world together by motor car. As pictured here, they are bride and groom, leaving the registrar's office in London where they were quietly wed. Soderstrom is a successful young film producer.

AT THE THEATRES

NOTED PLAYWRIGHT SUPERVISED SHOW HERE AT CAPITOL

When Carl Laemmle Jr., general manager of production for Universal, decided to make an elaborate all-talking picture of the stage success, "East Is West," now at the Capitol Theatre, he had the good fortune to obtain the services of Samuel Shipman himself to supervise the screen adaptation and dialogue. Shipman, who wrote the famous play which starred Fanny Brice for more than ten years on Broadway, and was one of the greatest hits in the history of the American theatre, the distinguished playwright went to Hollywood, and worked for many weeks with the scenario staff in the preparation of the play for the screen.

BRILLIANT ZIEGFELD SCREEN SHOW COMING TO CAPITOL THEATRE

As the first screen musical comedy to which Florence Ziegfeld gave his own personal supervision and skill, stage-craft, "Whoopee" which is showing at the Capitol Theatre, all next week, according to the critics, does full justice to the reputation and talents of the famous impresario. "Whoopee" is the first of the Capitol Theatre's greater movie season is very much a continuation of Eddie Cantor's stage success that ran for two years at the New Amsterdam Theatre, New York, transcribed bodily the films, with its huge spectacles magnified in size and beauty with the magic of Technicolor to give it reality. Ziegfeld, who produced the picture, claims that it is the first perfect all-color cinema extravaganza.

BEERY PORTRAYS SAVAGE AFRICAN AT THE COLUMBIA

When Noah Beery goes savage, he goes savage all over. The plot of "Golden Dawn," in which the noted actor is playing now for Warner Brothers, makes his character a cross between an African savage and a Portuguese desperado. He shaved his head completely, blacked himself all over, and not even his best friend would speak to him without an introduction. "Golden Dawn," natural color musical romance starring Walter West and Vivienne Segal is now showing at the Columbia Theatre.

AUSTRALIA GETS B.C. FLAGPOLE

Premier Tolmie Arranges For Gift Through Hon. Parker J. Moloney Here

A giant flagpole of British Columbia Douglas fir will be presented to the Australian Government by the government of this province to stand in the grounds of the Australian capital at Canberra. This was arranged at a final meeting here yesterday morning between Premier Tolmie and Hon. Parker Moloney, Australian Minister of Markets and Transport. Mr. Moloney accepted the gift on behalf of the government with great satisfaction. "This flagpole, I am sure," said Mr. Moloney, "will tower over everything in Australia. It is a great honor to us indeed, and it will always stand as a reminder of our visit to your great country, and of the satisfactory business we have done here."

The flagpole will be 160 feet high, similar to that sent from here to Kew Gardens, London, and to the Canadian embassy at Tokyo. It will be selected by government foresters immediately and shipped in the spring after being carefully shaped and seasoned.

PROTEST HEIRS HAD NO TITLE

Appeal Court Asked to Rule of Legality of Timber Rights Conveyances

The British Columbia Court of Appeal yesterday afternoon reserved judgment in the case of Carl J. Carlson against William Duncan and Arthur Green, a suit for trespass arising from a wood cutting agreement concerning land at Chilliwack.

On behalf of the respondents, who had been successful before Judge D. A. McDonald, Miss Edith Patterson supported the "continued validity of a conveyance of timber, given in 1908 by Gus Herring, the then owner, to the late A. T. Kellner, which conveyance accorded an unlimited right of entry on the land until the trees were cut."

The respondents Duncan and Green last spring acquired title from heirs of the deceased Kellner and after April 2 refused further payment of sixty cents per cord which had previously been made to the appellant Carlson.

B. L. Reid, K.C., for the appellant, argued that the agreement was out-lawsed by the Statute of Limitations, and that the heirs could not give conveyances because they had not taken out administration papers for the estate.

The peremptory list for to-day includes the following appeals: Mellott vs. Chafe, Farmer vs. Haines, Walker vs. Woodyard, Woodyard vs. Holtz, and Mack vs. Royal Bank of Canada.

GLASGOW M.P. DOES STUNT IN CAGE OF LIONS

Glasgow, Scotland, Jan. 9.—In heatless excitement a big crowd yesterday evening watched John Clark, Labor M.P. for the Marhill division of Glasgow, enter a menagerie cage in which were two lions and tigers and see several minutes in company with the animals.

The beasts showed a great aversion to his presence, snarling and threatening to spring, but refraining from attack. He first entered with a trainer, but subsequently went in alone, and walked to and fro in the cage. The creatures, swayed between anger and fear, finally allowed him to stop to perform a series of stunts.

Clark's stunt is part of a campaign he is conducting against a bill in parliament which he contends would put a stop to performances of wild animals, thus depriving hundreds of men of work. It was his object to show animals can be trained without cruelty.

"Playboy of Paris," is Maurice Chevalier's fifth all-talking, singing screen production. He made his film debut in "Innocents of Paris," played in "The Love Parade," followed with several numbers in "Paradise on Parade," and you popular favor in "The Big Pond."

"Playboy of Paris," Chevalier has a story very similar in spirit to that of "The Big Pond." This story deals with a millionaire waiter in Paris whose romantic leanings produce innumerable and highly amusing complications with the women of the fashionable capital. In this picture, which the Dominion Theatre will feature for the last time to-day Chevalier sings the new song hits, "My Ideal," "It's a Great Life" and "In the Heart of a Parrot." Eugene Palette and Stuart Erwin are in the supporting cast.

FAMOUS BRITISH ACTOR PLAYS IN COLISEUM FEATURE

The original "Grumpy" has at last been brought to the talking screen. The Coliseum Theatre shares in the treat by presenting this famous play for the next two days. But "Grumpy" the play is no more important than "Grumpy" the famous actor. "Grumpy" is Cyril Maude, the British star of nearly fifty years' experience, who played the role of the cranky, but high-spirited man 1,300 times on the stage.

GEORGE COOPER HAS LEADING ROLE WITH CAST IN "RENEGADES"

George Cooper, the "Boss" of "Hell's Angels," is again seen in uniform in "Renegades," now playing at the Playhouse Theatre. This time, however, he is a member of the French Foreign Legion, one of Warner Brothers' three comrades, Myrna Loy has the feminine lead in this Fox movietone which Victor Fleming directed.

Colwood

The opening meeting of the Women's Auxiliary to St. John's Church will be held in Colwood Hall next Wednesday afternoon at 2:30 o'clock.

Six tables were in play at the weekly 500 held in Colwood Hall under the auspices of the Colwood Hall Committee. Miss Jessie Kristine and Tom Parker were high scorers, while Mrs. J. Martin and W. Bowditch secured the consolation. Special prizes for the highest score of the month were presented to Mrs. Frank Hughes and J. Robinson.

TOO MUCH HONEY! ITS USE AS SUGAR IN BAKING URGED

Canadian Press

Ottawa, Jan. 9.—Extension of the market for surplus honey in the baking industry would seem to lie in the direction of increasing its use in sweet goods such as sugar cookies, rather than in the manufacture of bread as has been a common belief, states the report of an investigation in the laboratories of the University of Manitoba issued to-day by the National Research Council's Associate Committee on Grain Research.

It has been widely held that the substitution of honey for cane sugar in the manufacture of bread would result in a more rapid rate of fermentation and in an improvement in the flavor and keeping quality of the bread. The study now reported, which was made with financial assistance from the National Research Council and the Canadian Wheat Pool by Professor W. P. Goddard and C. A. Winkler, 1930 Wheat Pool research fellow from Manitoba, disproves this suggestion.

The alternative put forward by the investigators is that honey be used where its flavor, higher sweetening power and ability to absorb moisture are particularly advantageous—the last in relation to checking. It was found that the substitution of honey for commercial cane sugar in various straight dough bread baking formula made no significant difference in loaf volume, flavor or other bread characteristics, indicating honey possesses in these circumstances no superiority, but is of equal value when compared on the basis of equivalent sugar content.

Dinosaurs And North Tar Sands

Ottawa, Jan. 9.—The possibility of well-preserved dinosaur bones being found in the Fort McMurray tar sands, 300 miles north of Edmonton, as suggested by Prof. John Lewis of the University of Alberta, is believed by Charles N. Sternberg of the geological survey branch of the Dominion Department of Mines to be non-existent. Bones of tropical "plant life" existing about 50,000,000 years ago, were discovered last May by Dr. J. A. Clarke of Alberta University, but the flesh of dinosaurs, says Mr. Sternberg, could hardly have been found. The tar sands are sedimentary deposits through which oil has seeped from underground sources and flesh would be decomposed before being engulfed by the tar, he contends. Mammoth bones, he believes, might be found, unfossilized, but hardly the preserved bodies of the reptiles.

EVERY DAY GIVES MORE PROOF OF SARGON'S POWER

"I don't believe anybody ever had a worse case of stomach trouble than I did," declared Myles E. Chabtree, 4240 Dundas Street, Vancouver, who is a sufferer from indigestion.

MYLES E. CHABTREE

sometimes I'd have to draw my knees up to my chest and hold that position for a few minutes until the pains passed away. My eyes and head ached all the time and I had rheumatism in my left shoulder.

"Nine bottles of Sargon and Sargon Pills put me back on my feet and made me feel like a new man. Every pain and ache I had is gone and I've got more pep and strength now than I've had for the last six years. I believe a reasonable course of Sargon will help anyone get back in good health."

Sargon may be obtained in Victoria and Vancouver from all Owl Drug Stores; in New Westminster from the Bore Drug Co.; in Esquimalt from Palmer's Drug Store; in Oak Bay from Charles Hudson; in Sidney, Vancouver Island, from Sidney Pharmacy; and in Nanaimo from Kennedy's Drug Co. (Adv.)
